Subject: OPR Change of Order 8430.21A, dated 03/03/1986

While undergoing a scheduled document life cycle review of Order 8430.21A, Flight Standards Div., Aircraft Certification Div. and Aircraft Evaluation Group Responsibilities, a question was raised about whether the document resided in the correct office within Flight Standards.

As a result of discussions among stakeholders, the Air Transportation Division (AFS-200) is requesting a change in ownership of 8430.21A. Specifically, we would like the Office of Responsibility (OPR) to change from AFS-200 to the Aircraft Evaluation Division (AFS-100).

Per the agreement noted below, please change the OPR from AFS-200 to AFS-100

Thomas F. Malone, Division Manager, Air
