Federal Aviation Administration

Memorandum

Date: April 7, 2014

To: Vaughn A. Turner, Vice President Technical Operations Services, AJW-0

From: Manager, Administrative Services Team, AJG-P11

Prepared By: Jackie White, AJG-P11 JW 4/7/14

Subject: Cancellation of Orders Resulting from the 2014 Directives Revalidation

As a result of the 2014 Directives Revalidation, the following directives were designated to be cancelled without replacement.

As required by standard operating procedure, directives cancelled without replacement must be accompanied by a Safety Risk Management Decision Memorandum (SRMDM). In addition, the Office of Primary Responsibility (OPR) must document there are not users of the directive.

The following directives are recommended for cancellation. Please indicate your approval for cancellation for each one. **A copy of only one directive (1600.63) is available. The other four are not in possession by the OPRs or databases due to the age of the directives. The SRMDM's for cancelling these directives are attached.**

- **1600.63, Joint Atmospheric Connectivity Security Classification Guide —Reviewer Recommending Cancellation—H-Linda Clark, 202-493-4991;**

✓ Approved ___ Disapproved

- **6410.1, Radar Facilities and Equipment Modification Handbook – Radar Displays and Aircraft—Reviewer Recommending Cancellation—Gary Benny, 405-954-0456;**
