SUBJ: MEDIUM-INTENSITY APPROACH LIGHTING SYSTEM WITH
RUNWAY ALIGNMENT INDICATOR LIGHTS (MALSR)

1. PURPOSE. This change transmits revised pages,
2. EXPLANATION OF CHANGES. The standard drawings, series D-6045, have been revised to reflect the following design changes:
 - a. Revised wiring between sequenced flasher power supply and the flasher remote head auxiliary junction box.
 - b. Delete the two-inch slip fitter from PAR-38 lamp holder.
 - c. Redesigned PAR-38 lamp holder to fit into mounting specified in Specification FAA-E-2325b, Amendment 1.
 - d. Add mounting detail A on drawing D-6045-7 to move antenna away from support frame.
