Aviation Safety

Memorandum

Date: August 22, 2022

To: Susan E. Northrup, M.D., Federal Air Surgeon, Office of Aerospace Medicine, AAM-1

From: Kevin E. Carrel, Director, Program Management Division, AAM-100

Prepared by: Jessica L. Nelson, Program Analyst, Management and Personnel Systems Branch, AAM-120

Subject: Cancellation of AAM Order 8025.1D, Medical Responsibilities in Aerospace Incidents and Accidents

Overview:

AAM Order 8025.1D established the Office of Aerospace Medicine (AAM) responsibilities in the analysis of medical factors related to aerospace incidents and accidents.

The AAM office of primary responsibility (AAM-600) determined that this order is duplicative to Order AM 1100.3K (Office of Aerospace Medicine Organization). Cancellation of this order is required because it no longer correctly reflects the scope of our current functions.

All the Directors and the Senior Regional Flight Surgeon (SRFS) had an opportunity to review the directive. AAM-3, AAM-100, AAM-200, AAM-800, and the SRFS concurred without comment.

Disposition:

Should you have any concerns or questions, please contact the Office Aerospace Medicine at (202) 267-6358.
