

Federal Aviation Administration

Memorandum

Date: FEB 22 2007
To: Manager, Technical Information and Communications Programs Branch,
AFS-140
From: *David E. Cann* David E. Cann, Manager, Aircraft Maintenance Division, AFS-300
Prepared by: *Kim A. Barnette* Kim A. Barnette, AFS-350, x34922
Subject: Cancellation of FAA Order 8600.3A

Please take action to cancel FAA Order 8600.3A, Processing Federal Aviation Administration (FAA) Form 337, Major Repair and Alteration (Airframe, Powerplant, Propeller, or Appliance), by showing its cancellation in the next issuance of the directives checklist. The Director of Flight Standards, signed the subject order on October 5, 2006.

The guidance in the order is not current with industry standards and procedures. The Manager of the Aircraft Maintenance Division, AFS-300, determined that the currency status for processing FAA Form 337 would be better served in Advisory Circular AC 43.9-1F, Instructions for Completion of FAA Form 337. This guidance has already been incorporated in Advisory Circular AC 43.9-1F.
