

# Federal Aviation Administration

---

## Memorandum

Date: JUL 23 2013  
To: IT Business Enterprise Service Division, AES-200  
From: Michael Huffman, Manager, Surveillance Systems & Sensor Programs, AJM-231  
Prepared by: Tev Hatcher, Directives Management Officer, AJM-0  
Subject: Cancellation of Directives for AJM-2

---

In meeting the FAA long-term goal of keeping directives current, the Program Management Organization's Surveillance Systems & Sensor Program is requesting to cancel the following orders because they are fully implemented plans or no longer in the National Air Space.

Directive Number	Title
6300.12	Project Implementation Plan (PIP) Fixed Ground Antenna Radome (FGAR) Including Tower Retrofit Mod
6340.20	Solid State Receive/Digital Moving Target Indicator PIP
6360.15A	Mode S Project Implementation Plan
6360.17	Project Implementation Plan (PIP) Solid State Radar Beacon Decoder (SSRBD)
