

U.S. DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION
Aviation System Standards Policy

ORDER
JO 0000.44

Effective Date:
04/01/2009

SUBJ: Aviation System Standards Directives Checklist

- 1. Purpose.** This order transmits the checklist of directives issued by Aviation System Standards and for which Aviation System Standards (AJW-3) is the Office of Primary Responsibility (OPR).
- 2. Audience.** All Aviation System Standards employees, supervisors, and managers.
- 3. Where Can I Find This Order.** FAA Orders and Notices Website:
 - a. https://employees.faa.gov/tools_resources/orders_notices/
 - b. A link to this order may also be found in the AVN Management Handbook at <http://avnokc10.amc.faa.gov/avnmgthndbk>, Chapter 22, Section 2, Paragraph 2220.
- 4. Cancellation.** Order VN 0000.2G, Aviation System Standards Directives Checklist, dated January 10, 2008, is cancelled.
- 5. Directives Files.** Directives are listed in the sequence in which they should be filed.
- 6. Explanation of Distribution Codes.** The distribution code determines to whom the directive is distributed. Distribution is indicated at the bottom of the first page of a directive. The A-W means Washington headquarters; A-W-1 means to the director level; A-W-2 means to division managers and above; A-W-3 means to branch managers and above; A-W-4 means to section supervisors and above; A-W-5 means to all supervisors; A-W-6 means to secretaries and typists; A-W-7 means one copy for every five employees; and A-W-8 means to all employees. The A-W in combination with an office symbol gives distribution within that office. For example: A-W(AJW-3)-2 means distribution to Aviation System Standards to Group Managers and above.
- 7. Office of Primary Responsibility (OPR).** The OPR listed for each directive is the current OPR. If the OPR reflected on the front of the directive is different from the one shown in this checklist, use the OPR listed in the checklist.
- 8. Special Features.**
 - a. **Appendix 1.** This appendix lists all current orders and changes.
 - b. **Appendix 2.** This appendix lists all current notices.
 - c. **Appendix 3.** This appendix lists all canceled orders/notices during the preceding 12 months. If the canceling directive is shown in the current orders and changes section, DO NOT remove the

canceled directive until you receive a current one. The cancellation date shown is the date the canceling directive was approved, not the date it was distributed.

d. Number Signs (##). Number signs (##) preceding a directive's title identify the directive as security-classified or administratively restricted. See FAA Order 1600.2D, Safeguarding Controls and Procedures for Classified National Security Information and Sensitive Unclassified Information, for more information regarding security-classified directives.

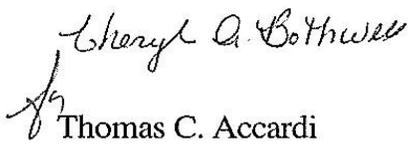

e. Dollar Signs (\$\$). Dollar signs (\$\$) preceding a directive's title indicate the directive is stocked by the OPR.

f. Percent Sign (%). The percent sign (%) preceding a directive's title indicates the Mike Monroney Aeronautical Center Printing and Distribution Team, AMI-700B, stocks the directive.

g. Asterisks (*). Asterisks (*) immediately preceding the Issuance Directive (I.D.) Numbers identify order activity that has occurred during the current reporting period, i.e., new issuances or changes.

9. Directive Frequency and Input Submission. Because the Aviation System Standards Directives Checklist is automated, it will be kept updated on an as required basis. A change page has been provided on which the Aviation System Standards Directives Management Representative (DMR) will post changes made to the document. The Aviation System Standards DMR is responsible for this publication. Employees may notify the DMR by e-mail of errors, corrections, and/or revisions. FAA Form 1320-19, Directives Feedback Information, located at the back of this directive, is provided for this purpose.

10. Distribution. A limited electronic distribution will be made to Group Managers and above in Aviation System Standards; one copy to the Air Traffic Organization, Technical Operations Administration; and to Managers/Supervisors in the Flight Inspection Field Offices.

Thomas C. Accardi
Director of Aviation System Standards
