and Standards
Airport Engineering Division

800 Independence Avenue, SW
Washington, DC 20591

March 27, 2009

Dear Industry Representative:

The Federal Aviation Administration (FAA) Draft Advisory Circular (AC) 150/5340-18F, *Standards for Airport Sign Systems*, is being circulated to interested parties to obtain comments and recommendations of actions to be taken. Please review the attached draft and submit comments as appropriate. Additionally, please provide justification for all comments regarding oppositions and recommended modifications. The final document may be revised as a result of comments received and further review by the Office of Airport Safety and Standards.

This AC contains FAA standards for the siting and installation of signs on airport runways and taxiways.

We will consider comments received by May 27, 2009, for inclusion in the advisory circular. Concurrence with the advisory circular is requested.

The document may be obtained in PDF format from the FAA website at http://www.faa.gov/airports_airtraffic/airports/resources/draft_advisory_circulars/.

Sincerely,

A handwritten signature in black ink that reads "Rick Marinelli".

Rick Marinelli
Manager, Airport Engineering Division
