FINAL DISPOSITION (INITIAL Not Required)

ORDER/PUBLICATION: 7110.65U

CHANGE: Basic

EFFECTIVE DATE: February 9, 2012

TRACKING #: 5B- 3-9-1

SPECIALIST/ROUTING: Kevin W Martin AJV-11 (202) 493-5727

1. PARAGRAPH NUMBER AND TITLE:

3-9-1. DEPARTURE INFORMATION

2. BACKGROUND: This change establishes requirements for aircraft landing on or departing from runways that have a temporary or permanent change in runway length due to construction. Changes include: the requirement to use the term "warning" and/or "shortened" on the ATIS; use of the term "shortened" in conjunction with all takeoff and landing clearances for a specified period; and prohibits use of the term "full length" when runway lengths have been temporarily shortened.

3. EXPLANATION OF CHANGE: This change amends paragraph 3-9-1 contained in FAA Order JO 7110.65, Air Traffic Control, by adding requirements when the available runway length has been shortened due to construction. These changes do not transfer pilot responsibility to the controller, but ensures that changes in runway length due to construction are communicated as an additional layer of safety. This change cancels and incorporates N JO 7110.564, Runway Construction, effective September 22, 2011.
