An OPR is the Office of Primary Responsibility. An office within a Line of Business, Staff Office, Region, or Center, that is responsible for the creation, development, life-cycle management, prescription, and distribution of a form controlled in the FAA Forms Management Program.

Forms Management Officer (FMO). FMOs are the primary points of contact for all forms related activity within their designated OPR.

FAA Logistics Center (FAALC) Customer Care Center (CCC). Contact the CCC at 405-954-3793 to request shipment of hardcopy paper stocked forms. Provide the following information: 1) Form Number, 2) Form Title, 3) National Stock Number (NSN), 4) Shipping Address, and 5) a point-of-contact (name & telephone number).

Flight Standards District Office (FSDO). FSDOs have oversight of FAA airspace, airport, and aircraft activity for their geographic designation and may issue special forms and temporary permits for use in localized areas, such as for flyovers, military maneuvers, rocket launches, balloon and airshows, etc. These forms are not maintained in the FAA Forms website. Contact your local FSDO to inquire about forms under their area of authority by accessing the FSDO website at: http://www.faa.gov/about/office_org/field_offices/fsdo/
