

VAPES ON A PLANE

Traveling soon? Here's what you need to know about flying with your vaporizers and electronic cigarettes.

- Vapes and e-cigs should only go in carry-on bags.
- Do not use or charge while onboard the aircraft.
- Do not allow devices to turn on. Store them and each spare battery carefully to protect from damage.
- Remove vapes, e-cigs and spare lithium batteries from luggage that is checked at the gate.
