Dear Ms. Bontrager:

Your letter of April 29, 1983, asked if the Federal Aviation Administration would recognize the authority of certain designated FDIC personnel to execute aircraft transaction documents, when those persons' authority to so act has been published in the Federal Register. You have also informed me that a copy of that designation in the Federal Register would accompany each FDIC document submitted for recordation or registration. The procedure you have outlined is consistent with our regulations, and acceptable to the Federal Aviation Administration. By copy of this letter, the Registry is being advised of our determination.

Sincerely,

Joseph R. Standell
Aeronautical Center Counsel
