

Proficiency Check Procedures for Obtaining Additional Category/Class Sport Pilot Privileges

The guidance below is for flight instructors conducting proficiency check in accordance with 14 CFR 61.321 and 61.419. The following will define the difference between a proficiency check and a practical test.

(1) A Proficiency Check is required if the pilot holds a FAA pilot certificate and wants to fly a different category or class of aircraft at the Sport Pilot level. Only an FAA authorized flight instructor accomplishes a Proficiency Check. The FAA form 8710-11 is used to record the Proficiency Check. This form is completed by the applicant, signed by the recommending instructor and presented, prior to the flight, to the instructor performing the Proficiency check. ***The Practical Test Standards are used in conducting a Proficiency Check and the FAA FORM 8710-11 must be mailed to the Airman Certification Branch in Oklahoma City within 10 days.***

(2) A Practical Test is required for an initial sport pilot certificate based on 14 CFR 61.329(a) or a flight instructor certificate with a sport rating based on 61.431. Only a Sport Pilot Examiner (SPE) or an Aviation Safety Inspector (ASI) can conduct a practical test.

The following instructions are to be used for completing the Airman Certificate And/Or Rating Application FAA Form 8710-11.
