## B.1 List of Preparers

This appendix provides the names and qualifications of the principal persons contributing information to this Environmental Assessment (EA) as required by Federal Aviation Administration (FAA) Order 1050.1F. In compliance with Section 1502.6 of Council on Environmental Quality (CEQ) regulations, the FAA employed the efforts of an interdisciplinary team of scientists, technicians, and experts in various fields to prepare this EA. Specialists included FAA and contractor support staff with expertise in air traffic control, airspace planning, noise assessment and abatement, Department of Transportation Act, Section 4(f) resources, and other disciplines. While an interdisciplinary approach was used to develop the EA, all decisions made with regard to the EA scope and content were made by the FAA. **Table B-1** identifies the FAA staff responsible for reviewing the EA document and **Table B-2** identifies the support contractor staff who prepared the document.
