CORRECTED COPY

The FAA is reissuing the October 2, 2015, grant of exemption of Exemption No. 11745A. A correction was made to add the closed-set motion picture and television filming to the Conditions and Limitations #2. Below is the amended Exemption No. 11745A that includes the aforementioned change. We made the correction in our records as of October 10, 2015.

October 2, 2015

Exemption No. 11745A
Regulatory Docket No. FAA-2015-0880

Mr. Jeffrey J. Antonelli
Counsel for Volo Pervidi, LLC
Antonelli Law
100 North LaSalle Street, Suite 2400
Chicago, IL 60602

Dear Mr. Antonelli:

This letter is to inform you that we have granted your petition for an amendment. It explains the basis for our decision, describes its effect, and lists any changes to the original conditions and limitations.

By letters dated July 6 and August 14, 2015 you petitioned the Federal Aviation Administration (FAA) on behalf of Volo Pervidi, LLC (hereinafter petitioner or operator) for an amendment to your current exemption. That exemption from §§ 61.23(a) and (c), 61.101(e)(4) and (5), 61.113(a), 61.315(a), 91.7(a), 91.119(c), 91.121, 91.151(a)(1), 91.405(a), 91.407(a)(1), 91.409(a)(1) and (2), and 91.417(a) and (b) of Title 14, Code of Federal Regulations (14 CFR) allows the petitioner to operate a UAS to perform aerial data collection and closed-set motion picture and television filming. You requested an amendment to add the 3D Robotics X8+, DJI Inspire 1, DJI S900, DJI S1000, and Precision Hawk-Lancaster aircrafts and conduct closed-set motion picture and television operations.

In your petition, you indicate that there has been no change in the conditions and reasons relative to public interest and safety that were the basis for granting the original exemption.

The FAA has determined that good cause exists for not publishing a summary of the petition in the Federal Register because the requested amendment to the exemption would not set a precedent, and any delay in acting on this petition would be detrimental to the petitioner. The unmanned aircraft authorized in the original grant are comparable in type, size, weight, speed and operating capabilities to those in this petition.

Airworthiness Certification

In accordance with the statutory criteria provided in Section 333 of Public Law 112–95 in reference to 49 U.S.C. § 44704, and in consideration of the size, weight, speed, and limited operating area associated with the aircraft and its operation, the Secretary of Transportation has determined that this aircraft meets the conditions of Section 333. Therefore, the FAA finds that relief from 14 CFR part 21, *Certification procedures for products and parts, Subpart H—Airworthiness Certificates*, and any associated noise certification and testing requirements of part 36, is not necessary.

Our Decision

The FAA has determined that the justification for the issuance of Exemption No. 11745 remains valid and is in the public interest. Therefore, under the authority contained in 49 U.S.C. 106(f), 40113, and 44701, delegated to me by the Administrator, the operator is granted an amendment to add new aircraft to its UAS operations.

The operator shall add this amendment to its original exemption.

Conditions and Limitations

All conditions and limitations within Grant of Exemption No. 11745 remain in effect except as follows. Condition No. 1 has been updated to reflect the additional aircraft, and Condition No. 2 has been updated to permit closed-set motion picture and television filming.

Failure to comply with any of the conditions and limitations of this grant of exemption will be grounds for the immediate suspension or rescission of this exemption.

1. Operations authorized by this grant of exemption are limited to the senseFly eBee, DJI Phantom 2 Vision+, 3DR X8+, DJI Inspire 1, DJI S900, DJI S1000, and Precision Hawk-Lancaster when weighing less than 55 pounds including payload. Proposed operations of any other aircraft will require a new petition or a petition to amend this exemption.
2. Operations for the purpose of closed-set motion picture and television filming are permitted.

This exemption terminates on June 30, 2017, unless sooner superseded or rescinded.

Sincerely,

/s/

John S. Duncan

Director, Flight Standards Service
