**AGENCY:** Federal Aviation Administration (FAA), Department of Transportation (DOT)

**ACTION:** Notice of Determination

#### **SUMMARY:**

In accordance with 14 CFR 450.45(b), the FAA has provisionally determined that the launch safety-related services and property of the Goddard Space Flight Center Wallops Flight Facility (GSFC/WFF), satisfy the requirements of Part 450 specified in the table below. A final determination is pending additional coordination between GSFC/WFF and the FAA.

**DATE:** The date of this notice is 9 December 2024.

**FOR FURTHER INFORMATION CONTACT:** For additional information concerning this action, contact Executive Director, Office of Operational Safety, Office of Commercial Space Transportation via letter: 800 Independence Ave SW, Washington, DC 20591; via email: 9-AST-Inquiries@faa.gov; via phone: 202-267-7793.

**SUPPLEMENTARY INFORMATION:** The Commercial Space Launch Act of 1984, as amended and codified at 51 U.S.C. §§ 50901-50923, authorizes the Department of Transportation, and the FAA through delegation, to oversee, license, and regulate commercial launch and reentry activities, and the operation of launch and reentry sites as carried out by U.S. citizens or within the United States. The FAA exercises this responsibility consistent with public health and safety, safety of property, and the national security and foreign policy interests of the United States. 51 U.S.C. 50905. To satisfy the FAA regulations, operators may use a means of compliance that has already been accepted by the FAA or propose an alternate approach.

**DETERMINATION:** In accordance with 14 CFR 450.45(b), the FAA has provisionally determined that the launch safety-related services and property of the GSFC/WFF satisfy the requirements of Part 450 specified in the table below. A final determination is pending additional coordination between GSFC/WFF and the FAA. Applicants are free to apply for listed services

under this provision prior to a final determination. The FAA expects to expand this determination to encompass additional requirements through the coordination process. The FAA may also accept services and property provided by GSFC/WFF as satisfying additional requirements on a case-by-case basis.
