

U.S. DEPARTMENT OF TRANSPORTATION  
FEDERAL AVIATION ADMINISTRATION  
**CERTIFICATE OF WAIVER**

ISSUED TO

**Florida Power & Light Company**  
**Responsible Person: Heath McLemore**  
**Waiver Number: 107W-2025-00968**

ADDRESS—

**700 Universe Blvd**  
**Juno Beach, FL 33408**

This certificate is issued for the operations specifically described hereinafter. No person shall conduct any operation pursuant to the authority of this certificate except in accordance with the provisions contained in this certificate.

OPERATIONS AUTHORIZED

Small unmanned aircraft system (sUAS) operations beyond the visual line of sight of the remote pilot in command (PIC).

LIST OF WAIVED REGULATIONS BY SECTION AND TITLE

**14 CFR § 107.31—Visual line of sight aircraft operation**

**STANDARD PROVISIONS**

1. A copy of the application made for this certificate shall be attached to and become a part hereof.
2. This certificate shall be presented for inspection upon the request of any authorized representative of the Administrator of the Federal Aviation Administration, or of any State or municipal official charged with the duty of enforcing local laws or regulations.
3. The holder of this certificate shall be responsible for the strict observance of the terms and provisions contained herein.
4. This certificate is nontransferable.

NOTE—This certificate constitutes a waiver of those Federal rules or regulations specifically referred to above. It does not constitute a waiver of any State law or local ordinance.

**SPECIAL PROVISIONS**

Special Provisions Nos. 1 to 26, inclusive, are set forth on the attached pages.

This Certificate of Waiver is effective from May 12, 2025, to January 31, 2027, and is subject to cancellation at any time upon notice by the Administrator or an authorized representative.

**BY DIRECTION OF THE ADMINISTRATOR**

**Emerging Technologies Division, AFS-700**

**SPECIAL PROVISIONS ISSUED TO**  
**Florida Power & Light Company**

**General.**

This Certificate of Waiver is an amendment which supersedes and replaces Waiver 107W-2021-02970 issued to Florida Power & Light Company for operations under 14 CFR 107. Waiver 107W-2021-02970 is no longer valid.

The FAA's Flight Standards Service has reviewed your application to ensure compliance with the requirements of 14 CFR § 107.200 and § 107.205. Pursuant to these authorities, the Administrator finds that the proposed small, unmanned aircraft (sUA) operation can be conducted safely under the provisions of this Certificate of Waiver (Waiver) as listed below because you have established adequate mitigations for risks involved with operating your sUA in the manner you described. Adherence to the provisions of this Waiver establishes the required level of safety within the national airspace system.

The Administrator may cancel this Waiver at any time. As a general rule, this Waiver may be canceled when it is no longer required, there is an abuse of its provisions, or when unforeseen safety factors develop. Failure to comply with any provision listed below is a violation of the terms of this Waiver and will serve as justification for cancellation.

List of Regulations Waived by Section and Title. The following regulations are waived:

**14 CFR § 107.31**, Visual line of sight aircraft operation, is waived to allow operation of the small, unmanned aircraft (sUA) beyond the direct visual line of sight of the remote pilot in command (PIC).

No part of this waiver will function as an airspace authorization under 14 CFR § 107.41. The FAA's Air Traffic Organization responds directly to requests for such authorizations.

**Common Special Provisions.** The Responsible Person is directly responsible for safety of operations conducted under this Waiver and will ensure the Remote Pilot in Command (remote PIC) and the FPL Flight Operations Manager comply with all provisions of this Waiver.

1. The Responsible Person listed on the Waiver is responsible to the FAA for the safe conduct of the operations. Prior to conducting operations that are the subject of this Waiver, the Responsible Person:
  - a. Must ensure the remote PIC and the FPL Flight Operations Manager are informed of the terms and provisions of this Waiver and strictly observe the terms and provisions herein;
  - b. Must ensure the remote PIC and the FPL Flight Operations Manager are informed and familiar with part 107 regulations; and
  - c. Evidence of the above (a and b) must be documented and must be presented for inspection upon request from the Administrator or an authorized representative;
2. This Waiver may not be combined with any other waiver(s), authorization(s), or exemption(s) without specific authorization from the FAA;
3. The FAA has the authority to cancel or delay any or all flight operations if the safety of persons or property on the ground or in the air are in jeopardy or there is a violation of the terms of this Waiver;

4. A copy of this Waiver must be accessible and available to the remote PIC at the ground control station during sUA operations that are the subject of this Waiver;
5. The Responsible Person listed on this Waiver must maintain a current list of pilots by name and remote pilot certificate number used in operations under this Waiver. This list must be presented for inspection upon request from the Administrator or an authorized representative;
6. The Responsible Person listed on this Waiver must maintain a current list of sUA by registration number(s) used in operations under this Waiver. This list must be presented for inspection upon request from the Administrator or an authorized representative;
7. For the purposes of this Waiver, direct participants are the remote PICs, FPL Flight Operations Manager, and any persons whose involvement is necessary for safety of the sUA operation. All other persons are considered non-participants;

**Visual Line of Sight Operations Special Provisions** The remote PIC may conduct sUAS operations without the ability to see the unmanned aircraft throughout the entire flight, provided:

## **OPERATIONAL PROVISIONS**

8. Operations may not be conducted at night, as defined in 14 CFR § 1.1;
9. Individuals directly participating in the operation of the sUAS must be easily identifiable visually (e.g., apparel, safety vests);
10. The remote PIC must be positioned in such a manner to continuously observe at least a 2 statute mile radius of airspace;
11. The sUA must not exceed
  - a. 50 feet above ground level (AGL), or
  - b. 50 foot radius from any natural obstruction or manmade object that is being inspected;
12. The Responsible Person must ensure all operations conducted under this Waiver follow the procedures outlined in the operations manual. If a discrepancy exists between the provisions in this Waiver and the procedures outlined in the operations manual, the provisions of this Waiver take precedence and must be followed;
13. The Responsible Person must ensure a copy of the Waiver application and Waiver is available to the remote PIC and all other direct participants prior to and during sUAS operations that are the subject of this Waiver;
14. Prior to operations under this Waiver, all direct participants must attend a safety briefing that addresses at minimum, the following items:
  - a. Designated positions, physical locations, responsibilities, and Crew Resource Management,
  - b. Planned flight operating area,
  - c. Designated launch and recovery areas,
  - d. Verification of geo-fence boundaries,
  - e. Verification of return home and land flight profile, and course,
  - f. Verification of emergency landing site(s), land profile, and course,
  - g. Procedures for avoidance of other aircraft, and

h. Procedures for operating under this Waiver;

15. Operations subject to this waiver must cease if, at any time:

- a. Safety of human beings or property on the ground or in the air is in jeopardy,
- b. Any failure to comply with the provisions of this Waiver exists,
- c. sUA control link is lost,
- d. A non-participating aircraft or person enters the designated flight operating area,
- e. GPS signal is lost, or sUA GPS location information is degraded or uncertain, or
- f. any part of the DAA strategy is not functioning or unavailable;

16. No sUA flight that occurs under this waiver may carry the property of another for compensation or hire;

## TECHNICAL PROVISIONS

17. Any modification to the sUAS design is prohibited; repair and replacement of damaged components is allowed with a replacement part that is exactly the same as the original; no substitutions are allowed unless the Responsible Person submits a new waiver request describing the substitution or modification;

18. Any sUAS that has undergone maintenance must undergo a functional test flight prior to conducting operations under this Waiver. A log entry must be made for each functional test flight. The log entry must contain at minimum the:

- a. Calendar date,
- b. sUA registration number,
- c. Remote PIC who performed the functional test flight,
- d. Duration of the flight, and
- e. The result of the functional flight test;

19. Prior to conducting operations under this Waiver, the remote PIC must determine all control links used in the sUAS will work properly at the maximum planned distance for the proposed operation. At all times during operations that are the subject of this Waiver, the remote PIC must maintain the ability to direct the sUA to ensure compliance with the applicable provisions of this waiver;

20. If the remote PIC loses command or control link with the sUA, the sUA must be programmed to follow a predetermined route to either reestablish link or immediately recover/land at a predesignated location as indicated in the waiver application;

21. The sUA must be equipped with high visibility markings and lighting to increase the conspicuity of the sUA to 1 statute miles;

22. As described in the waiver request, the sUAS ground control station must display in real time the following information: sUA altitude, sUA position, sUA direction of flight, and sUAS flight mode. This information must be available at all times to the remote PIC;

23. The sUAS must audibly and visually alert the remote PIC of degraded system performance, sUAS malfunction, or loss of Command and Control (C2) link between the ground control station and the sUA;

24. ADS-B out (1090/978 MHz) may not be transmitted from the sUAS when operating pursuant to this Waiver;

25. All emitters used in sUAS must be in compliance with all applicable FCC regulations and all provisions of the FCC authorization granted for the emitter. A FCC experimental authorization may not be used for sUAS operations under this Waiver; and

#### **ENVIRONMENTAL PROVISIONS**

26. Operations conducted under this Waiver are limited to areas meeting the operational requirements and restrictions described in the waiver application.
