

FEDERAL AVIATION ADMINISTRATION

**FLIGHT ADVISORY
NATIONAL SPECIAL SECURITY EVENT
PAPAL VISIT
UNITED NATIONS GENERAL ASSEMBLY
UNGA-70
SEPTEMBER 16, 2015 – OCTOBER 5, 2015**

This advisory serves as notice of flight restrictions that will be in place for the United Nations General Assembly-70th session (UNGA-70). Multiple Notices to Airmen (NOTAM) will be published to cover the events. Additional NOTAMS, not covered by this Advisory, may be published for this event.

Pursuant to 49 USC 40103(B), The Federal Aviation Administration (FAA) classifies the airspace defined in this advisory and the published NOTAMs as "National Defense Airspace". Pilots who do not adhere to the following procedures may be intercepted, detained and interviewed by Federal Law Enforcement/Security Personnel. Any of the following additional actions may also be taken against a pilot who does not comply with the requirements or any special instructions or procedures announced in the NOTAM.

- A) The FAA may take administrative action, including imposing civil penalties and the suspension or revocation of airmen certificates; or
- B) The United States Government may pursue criminal charges, including charges under Title 49 of the United States Code, Section 46307; or
- C) The United States Government may use deadly force against the airborne aircraft, if it is determined that the aircraft poses an imminent security threat.

The initial NOTAM for the UNGA-70 will be in effect from September 16 through October 5, 2015. Additional NOTAMs will also be issued for various VIP visits during this timeframe. The restrictions in these NOTAMS will vary widely and may restrict or prohibit many types of flights, so pilots/aircraft operators should check NOTAMS before every flight. Gateway screening may also be available during certain timeframes. More information will be available as we get closer to the event.

The FAA point of contact for questions or issues related to TFR restrictions or requirements is the System Operations Support Center (SOSC), available 0800-2000 seven days a week, phone 202-267-8276.

The NOTAMs discussed in this advisory may change with little or no notice. Pilots are advised to check NOTAMs frequently for possible changes prior to operations in the area. Pilots are strongly encouraged to contact a Flight Service Station at 1-800-WX-BRIEF (1-800-992-7433) prior to flight to check for all current NOTAMS.
