Responding to the Nation's Aviation Noise Concerns, 2026 (Q2)

Nationwide

Total Complaints
and Inquiries

5,541

Total Individuals Who
Submitted Concerns

1,572

Note: All data was compiled by querying the ANCIR Noise Portal for complaints and inquiries from Q2 of the 2026 calendar year.

Responding to the Nation's Aviation Noise Concerns

The Federal Aviation Administration (FAA) is dedicated to addressing aircraft noise complaints and inquiries from the public with efficiency and effectiveness. Our primary objective is to handle these concerns in a clear, consistent, and repeatable manner, ensuring a responsive approach that optimally utilizes FAA resources.

To achieve this goal, we have established the Aviation Noise Complaint and Inquiry Response (ANCIR) Portal. This innovative platform serves as a central hub for the public to submit their concerns and inquiries related to aircraft noise. The ANCIR Portal streamlines the process, allowing us to provide a comprehensive and timely response to each submission.

Our commitment extends beyond merely acknowledging complaints; we aim to deliver thorough and accurate information to the public. By addressing their concerns comprehensively, we strive to foster transparency and understanding. This approach not only meets the immediate needs of the public but also contributes to a broader effort to enhance public awareness and engagement on aviation noise issues.

Through ANCIR, we seek to uphold a standard of responsiveness that reflects our dedication to serving the public. By utilizing the best practices and optimizing FAA resources, we aim to create an effective system that consistently meets the needs of those impacted by aircraft noise. Our ongoing commitment to improvement ensures that the ANCIR Portal remains a valuable tool in promoting transparency, understanding, and cooperation between the FAA and the communities we serve.

To better understand the FAA guidelines for processing noise complaints, we urge you to review our [policy](#) and [index](#) pages. These resources explain what types of concerns are processed, and how they are defined and organized for reporting. We appreciate your cooperation and look forward to maintaining a positive and constructive dialogue with your community.
