Information for Operators

InFO 10006  
DATE: 6/9/10

Flight Standards Service  
Washington, DC

**[http://www.faa.gov/other\\_visit/aviation\\_industry/airline\\_operators/airline\\_safety/info](http://www.faa.gov/other_visit/aviation_industry/airline_operators/airline_safety/info)**

*An InFO contains valuable information for operators that should help them meet certain administrative, regulatory, or operational requirements with relatively low urgency or impact on safety.*

**Subject:** Master Minimum Equipment List (MMEL) Policy Letters

**Purpose:** This InFO discusses the change in location of the MMEL Policy Letters.

**Background:** The Federal Aviation Administration (FAA) maintains current MMEL Policy Letters on the website [www.opspecs.com](http://www.opspecs.com). The website is in the process of being phased out and all information is being migrated to other locations.

**Discussion:** The FAA is modifying the Flight Standards Information Management System (FSIMS) to host all final Policy Letters. Draft Policy Letters out for comment will continue to be housed within the [opspecs.com](http://www.opspecs.com) website. Industry users can find final MMEL Policy Letters on the public FSIMS Web-site at <http://fsims.faa.gov>. Policy Letters are also available to FAA personnel on the internal FSIMS Web-site at <http://fsims.avs.faa.gov>. Access the final MMELs by clicking on the "Publications" link on the left or the "Publications" tab at the top. Draft Policy Letters may be viewed at [www.Opspecs.com](http://www.Opspecs.com) by doing the following: For Draft Policy Letters click MMEL – Draft and Comment – Policy Letters – List – Select – file – print (or select link to email your suggestion/proposed changes).

**Recommended Action:** FAA personnel and industry users should review the contents of this InFO and become familiar with accessing and viewing MMEL Policy Letters on FSIMS and draft Policy Letters on [www.Opspecs.com](http://www.Opspecs.com).

**Contact:** Any questions or comments concerning this InFO should be directed to the Technical Programs branch, AFS-260 at (202) 267-8166.
