INTRODUCTION

The Aerospace Medical Certification Subsystem (AMCS) is an integrated and standard system designed to vastly improve and simplify the processing of applicant medical certification information. One of the primary goals of the AMCS is to allow all AMEs to enter the Form 8500-8 application information directly into the system via the Internet. AMEs will be assigned an AMCS username and password by the FAA. AMEs will access the AMCS Internet application by connecting to the AMCS Login Page at https://medxpress.faa.gov/loginnet/Login.aspx?app=AMCS.

This document discusses the system requirements for accessing the AMCS Internet application and provides the instructions necessary to walk the user through the data entry and submission process.

AME SYSTEM REQUIREMENTS

The AME is responsible for establishing and maintaining the Internet access for their office. This includes signing up with an Internet Service Provider (ISP) (e.g. AOL, CompuServe, etc.). While the FAA cannot endorse any particular ISP, it is recommended that the AME sign-up with one that will be able to provide Internet access at the required speeds with as few service interruptions or connection difficulties as possible. It is important to note that while the ISP and operating systems utilized are up to the user, the only web browsers that may be used are Microsoft Internet Explorer® (version 5.0 or higher) and Netscape® (version 6.0 or higher). These web browsers support the required 128-bit encryption that is utilized by the FAA as a security measure. If you do not have one of these browsers installed, you will not be granted access to the AMCS Internet web site. These browsers are available for download from the Internet.

AMEs will also find that although their existing computer system may be able to access the AMCS web site, performance will be greatly improved with a computer containing a faster processor (233 MHz or higher), a faster modem (preferably 56K), and additional RAM (64 – 128 MB).

AMCS INTERNET APPLICATION

AMEs may access the AMCS Internet application by going directly to the AMCS Login Page or by going to the FAA website http://www.faa.gov and selecting the following hyperlinks.

From the FAA’s home page, click on the Licenses & Certificates tab at the top of the page. From the Licenses & Certificates page, click on the Medical Certification link located on the left side of the screen or listed below the Top Requests subject title. From the Medical Certification page, click on the Aerospace Medical Certification Subsystem (AMCS) Online Support link located below the Aviation Medical Examiners subject title. This will take you to the AMCS Online Support page.

The Aerospace Medical Certification Subsystem (AMCS) Online Support page provides important notices about policy changes and update information concerning use of the application or enhancements made to the application. The online support page also provides and AMCS/DIWS Login hyperlink and hyperlinks relating to general information, support and security.

Clicking on the AMCS/DIWS Login hyperlink will take you to the AMCS Login Page.
**Pop-Up Blockers and Cookies**

Pop-Up Blockers must be disabled and Cookies must be enabled in order for the AMCS Internet application to function properly.

**Internet Connection Issues**

In the event that you lose Internet connectivity prior to transmitting, the information that was previously saved will be stored in the database. Any data that had not been saved must be re-entered. For example, if you entered data on page 1 of the Form 8500-8 Data Entry screens and saved, then began entering data on page 2 when the Internet connection was terminated, all of the information on page 1 will remain in the database. Therefore, upon logging back into the system, you should search for the airman again and select the pending application for that airman, which will have a status of ‘P’. All of the saved data will be present and you should proceed to the page of the Form 8500-8 Data Entry screens that you were on when the Internet connection was lost and continue the data entry process.

**NOTE**

This web site is best viewed using a screen resolution of 1024 x 768. If your monitor or video display adapter cannot handle this resolution, you will still be able to view all of the pages. You will have to utilize the vertical scroll bar on the right-hand side of the window in order to view the information that is on the bottom of the screens.

**Technical Support**

For technical support questions please contact the AMCS Help Desk at (405) 954-3238.
AMCS LOGIN

Locate the URL for AMCS with your browser and type in your User Name and Password. Strike <Enter> or click the Login button. You will be taken to either the AMCS Messaging Home Page or to the AMCS Pending Exams screen.

AMCS Login Screen
Change Password

AMCS passwords will expire every 90 days. If your account has expired you will be taken directly to the Change Password screen after your login attempt. To change your password click on the Change Password button on the Login screen.

The Login window will expand to include New Password and Confirm text boxes.

Change Password Screen

Enter a new password of your choice. Passwords must be at least eight characters in length and must use three of the four following different character types:

- Uppercase alphabetic characters (A-Z)
- Lowercase alphabetic characters (a-z)
- Numeric characters (0-9)
- Non-alphanumeric characters (*#&%@~^)

Password characters may not be repeated more than two times (Valid: PPassword1 – Not Valid: PPPassword1).

The system will maintain the last five passwords and not allow you to use any password that you have used in the past five changes. IMPORTANT: Login accounts will be locked out for twenty minutes after three failed attempts to login to AMCS.

Enter your new password in both areas and strike <Enter> or click the Login button. Your password will be changed and you will be logged onto to AMCS.
Notice of Account Suspension

An AME whose status is inactive will no longer be able to log on to AMCS. An inactive AME, or a member of that AME’s staff attempting to log on to AMCS will be presented with a “Notice of Account Suspension” screen and should contact their FAA Regional Office representative for the appropriate instructions on how to proceed.

Notice of Account Suspension Screen

All AMCS accounts for AME Number 29 are currently suspended. Please contact your FAA Regional Office representative for instructions on how to submit an FAA Application for Airman Medical and Student Pilot Certificate.

**Medical Certificate Class**

Select the appropriate classification granted from the drop down list provided.

**Limitations**

Select the limitation(s) that apply.
Certificate/Form Number

This field will automatically populate with a GX-******* computer generated number if the exam was transmitted via the FAA’s MedXPRESS system and the digits will be read-only. (Exams that were imported prior to the new release will have an FX prefix.) If the exam information is being entered from the AME’s office the FF-******* or GG-******* number from the paper 8500-8 form should be entered.

If an AME needs to use a paper 8500-8 form to issue a certificate to an applicant whose exam was imported via the MedXPRESS system and only has the FF-series paper forms available, the form number can be changed from GX to FF. Changing the form number will cause the electronic form to convert to an FF series form, thereby removing question 18.y and any comment that may have applied. It will also require you to re-answer question 18.v if it was answered “Yes” prior to the form conversion. You will receive the following warning message if you convert to an FF series form.

![Warning Message](image)

The form number can also be changed from FX to GG and a paper 8500-8 form used to issue a certificate to an applicant whose exam was imported via the MedXPRESS system. Changing the form number will cause the electronic form to convert to a GG series form, thereby adding question 18.y that will need to be answered. It will also require you to re-answer question 18.v if it was answered “No” prior to the form conversion. You will receive the following warning message if you convert to a GG series form.

Certificate Issued With Certificate Eligibility Warning

Each exam is validated against the applicant’s medical history in the DIWS. If the applicant has had a previous exam denial, a prior exam submitted within the past 90 days, or has a pending legal action, a Certificate Eligibility Warning will appear above Item 62 recommending that you not issue a certificate. If the AME has decided to issue anyway the warning will be shown again prior to submission. If the AME decides to continue to ignore the warning a screen will launch requiring the reasons for issuance against the warnings be explained.
**Explanation for Submission**

If the decision has been made to ignore the warnings and issue a certificate anyway the Explanation for Submission screen will launch requiring the AME to enter an explanation for the issuance before AMCS will allow submission of the exam.
EXAM SUBMISSION CONFIRMATION

Once all of the necessary data has been entered, click on the Submit Exam button on the bottom of Page 3 of the Form 8500-8 Data Entry screens.

If the data does NOT pass the final validation stage, error messages will display at the top of the page. Clicking on the error will take you to the appropriate page of the Form 8500-8 Data Entry screens so you can correct the error.

If all of the data passes the final validation stage, a Confirmation screen will appear displaying a message indicating that the exam was submitted successfully along with the Exam Date, Applicant ID number, MID number, applicant’s DOB and SSN as well as the applicant’s name and address.

The MID number uniquely identifies this examination within the DIWS database. The Applicant ID uniquely identifies the individual within the DIWS database. These numbers should be included on all correspondence associated with this application as it will allow the FAA to quickly locate an airman’s record.

Clicking the Display Summary button presents a summary of the completed Form 8500-8.

Clicking the Preview Cert button launches the Medical Certificate Preview page where the medical certificate can be reviewed and then printed.
