

Beta Version March 2022	Areas Of Expertise	Structural												
		Wing	Fuselage	Empennage	Landing Gear	Flight Controls	Rotor	Doors	Process Specifications	Material Allowable/ Specification	Interior Arrangement	Fire Protection	Interior Materials	Evacuation Systems
		Authorized Delegations												
		Design and Construction												
		Static Analysis												
		Dynamic Analysis												
		Fatigue Analysis												
		Damage Tolerance												
		Flutter/Ground Vibration												
		Flotation and Ditching Analysis												
		Structural Loading Limitations												
		Aircraft Level Loads												
		Cabin Safety												
		Flammability												
		LIMITATIONS												
Material Properties are Independent Final Processing (e.g. classic metallic structure)														
Material Properties Dependent Upon Final Processing (e.g. composite, additive manufacturing)														
Special Limitations/Notes
