Dear Aircraft Owner or Operator,

Each year, the Federal Aviation Administration conducts a survey to calculate fleet size and the hours flown by the general aviation community. Please log on to <a href="https://www.aviationsurvey.org">www.aviationsurvey.org</a> to complete a survey for the aircraft listed below. Use the aircraft N-number as your password. If you cannot complete the survey on the Internet, you will be sent a paper survey in the mail. It may be helpful to have your flight log book handy to answer the questions.

N-NUMBER: SAMPLE

MANUFACTURER: SAMPLE

MODEL: SAMPLE SERIAL: SAMPLE

This survey for the FAA is conducted by Tetra Tech, an independent research firm, and your answers will remain completely private. If you have questions about the survey, please call Tetra Tech at 1-800-826-1797. Thank you for your help with this important study.

Figure B.3. Single Aircraft—Reminder/Thank-You Postcard

Dear Aircraft Owner or Operator,

Each year, the Federal Aviation Administration conducts a survey to calculate fleet size, the hours flown by the general aviation community, and the reasons people use general aviation aircraft. A few weeks ago, we sent a postcard invitation to complete this survey on the Internet, followed by a paper version of the survey.

If you have already completed the survey online or returned the paper version, *thank you*. If you have not yet done so, please log on to <u>www.aviationsurvey.org</u> to complete the survey online for the aircraft listed below (use the aircraft N-number as your password). Or you may fill out and mail back the paper version—another survey form with a postage-paid envelope will be arriving in a few days.

N-NUMBER: SAMPLE

MANUFACTURER: SAMPLE

MODEL: SAMPLE SERIAL: SAMPLE

If you have questions or cannot complete the survey on the Internet, please contact Tetra Tech at 1-800-826-1797 or email infoaviationsurvey@tetratech.com. Thank you for your help with this important study.

# Figure B.4. Single Aircraft—Mail 1 Survey Insert for Partial Web Completes

Our records indicate you were unable to complete the 2021 General Aviation and Part 135 Activity Survey on the Internet. We apologize if this was caused by slow server response time or other technical difficulties. It's very important that we include everyone's response in order to represent the general aviation community accurately. We would appreciate it if you would complete the enclosed paper version of the 2021 General Aviation and Part 135 Activity Survey.

Thank you for your help with this important study. If you have any questions, please call Tetra Tech at 1-800-826-1797.

# Figure B.5. Insert for All Mail Surveys with Alaska Addresses (Single Aircraft and Large Fleet)

Dear Alaskan aircraft owner or operator:

The enclosed survey is an important tool in collecting accurate information on Alaskan aviation.

The **Alaska Airmen Association** and **Alaska Air Carriers Association** strongly support this survey and encourage your participation. The survey is conducted by Tetra Tech, an independent research firm, and your answers will remain completely private.

If we are to set the best course for aviation in Alaska, we need the best data. Please take a few minutes to complete the enclosed survey—it will be time well spent!

Thank you,

Abby Austin Executive Director Alaska Airmen Association Jane Dale Executive Director Alaska Air Carriers Association

If you have questions, please contact Tetra Tech at 1-800-826-1797 or infoaviationsurvey@tetratech.com.

# Figure B.6. Single Aircraft—Mail 1 Cover Letter

Office of the Administrator

800 Independence Ave., SW Washington, D.C. 20591

**Federal Aviation** Administration

March 11, 2022

Dear Aircraft Owner or Operator:

The Federal Aviation Administration is conducting the 44th annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2021. We need to hear from you - even if you did not fly in 2021 or filled out a similar survey last year.

> Please respond today at www.aviationsurvey.org Use your aircraft N-number as the login password

#### **ABOUT THE SURVEY**

The GA Survey is the only source of information on the size, activity, and characteristics of the GA fleet. Information is used to

- Compute safety metrics, such as fatal accidents rates
- Understand the impact of the GA industry on jobs, economic output, and investments in aviation infrastructure
- Track the success of safety initiatives, including avionics recommendations

WHY SHOULD I RESPOND? The FAA and industry need accurate data on a broad range of aircraft. Your participation is voluntary, but we need your help to accurately measure the GA fleet.

#### QUESTIONS?

Answers to frequently asked questions are on the reverse of this letter. For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Steve Dickson Administrator

#### What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

#### Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

#### Why was I selected for this survey?

Your aircraft was selected from the Civil Aviation Registry. The Registry shows you as a registrant of this aircraft as of December 31, 2021.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

# What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

You may have been selected again because several groups of aircraft are sampled at 100 percent to better understand general aviation activity of high-use groups (FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft). If you were randomly sampled to complete a survey last year, it may be because there are relatively few aircraft like yours so you may be selected more often.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey help line, at 1-800-826-1797, or email: infoaviationsurvey@tetratech.com.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

# Figure B.7. Single Aircraft—Mail 2 Cover Letter

800 Independence Ave., SW Washington, D.C. 20591

Administration

April 15, 2022

Dear Aircraft Owner or Operator:

Please participate in the 2021 General Aviation (GA) and Part 135 Activity Survey. This survey allows the FAA to track the success of our safety initiatives, identify areas for improvement, focus our resources, and better serve the GA community. To provide accurate information on the general aviation fleet we need to know about ALL aircraft in our sample—even if you did not fly in 2021.

> Please respond today at www.aviationsurvey.org Use your aircraft N-number as the login password

#### ABOUT THE SURVEY

Information from the GA Survey is used to

- Measure aviation activity across the US to support airport master planning
- Assess the effects of energy conservation programs by collecting data on fuel type and fuel consumption
- Support studies of aircraft fatigue and set maintenance cycles

#### WHY SHOULD I RESPOND?

Higher response rates produce more accurate data! Data needed to calculate accident rates, estimate economic impacts, assess safety initiatives-all things that affect aircraft owners like you.

# QUESTIONS?

Answers to frequently asked questions and contact information for assistance are on the reverse of this letter.

Thank you for your help with this important study!

Sincerely,

Warren Randolph Acting Executive Director, Accident Investigation and Prevention, AVP-1

#### What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

#### Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

#### Why was I selected for this survey?

Your aircraft was selected from the Civil Aviation Registry. The Registry shows you as a registrant of this aircraft as of December 31, 2021.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

#### What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

You may have been selected again because several groups of aircraft are sampled at 100 percent to better understand general aviation activity of high-use groups (FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft). Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

# Figure B.8. Single Aircraft—Mail 3 Cover Letter

800 Independence Ave., SW Washington, D.C. 20591

**Federal Aviation** Administration

May 20, 2022

Dear Aircraft Owner or Operator:

Do you have 15 minutes to spare? Thanks to the support and participation of the General Aviation (GA) community, the 2020 survey was a tremendous success. You can help us sustain that success!

> Please respond today at www.aviationsurvey.org Use your aircraft N-number as the login password

#### **ABOUT THE SURVEY**

The GA Survey is the only source of information on the size, activity, and characteristics of the GA fleet. The data are used to

- Compute fatal accident rates and other safety metrics.
- Understand how aviation impacts local economic growth. including jobs and household income.
- Determine funding for aviation infrastructure.

# WHY SHOULD I RESPOND?

- The FAA and industry rely on these data for a broad range of
- Your response is confidential and critical, even if you did not fly in 2021.
- All aircraft are important! Your aircraft represents many others like it across the National Airspace System.

# QUESTIONS?

For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Figure B.9. Single Aircraft—End-of-Field-Period Follow-Up Postcard

Dear Aircraft Owner or Operator,

We need your help! The 2021 General Aviation and Part 135 Activity Survey will end very soon. Thank you for your past participation—previous surveys have been a success thanks to you and many aircraft owners like you. Information about the activity of aircraft each year is critical to accurately calculate fleet size, hours flown, and the reasons people use their general aviation aircraft.

**Please complete your survey today** by logging on to <u>www.aviationsurvey.org</u> for the aircraft listed below (use the aircraft N-number as your password).

# 2021 General Aviation and Part 135 Activity Survey Large Fleet Form

This form collects information based on 6 broad aircraft categories. We recommend responding for one aircraft category at a time—each category should be completed independently of the others.

Please return the completed pages in the enclosed postage-paid envelope. You may email responses to infoaviationsurvey@tetratech.com or complete the survey online: www.aviationfleetsurvey.org (to log-in, use the 7-digit password shown in red in the bottom right corner of the page). If you have questions about this study, call Tetra Tech at 1-800-826-1797.

Submission of this form is voluntary. The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent.

When reporting aircraft activity, include all hours flown by all users under all FAR Parts for all of 2021.

If you do not know the exact information for a particular question, please provide your best estimate.

Q1 Enter the number of aircraft in each aircraft type that were owned or operated by your organization as of December 31, 2021. Then, enter the state/territory in which each aircraft type was primarily flown in 2021. (Enter 0 if you did not own or operate aircraft in a category in 2021. If none of the aircraft in a category were flown, leave the state primarily flown blank.)

Aircraft Type	Number of Aircraft	State Primarily Flown*
Turbojets		
Turboprops		
Reciprocating Aircraft		
Turbine Rotorcraft		
Reciprocating Rotorcraft		
Other Aircraft (e.g., balloons, gliders, experimental, etc.)		

<sup>\*</sup>Please use 2-character state/territory abbreviations.

# Figure B.11. Large Fleet—Mail 1 Cover Letter

Office of the Administrator

800 Independence Ave., SW Washington, D.C. 20591

**Federal Aviation** Administration

February 18, 2022

Dear Aircraft Owner or Operator:

The Federal Aviation Administration is conducting the 44th annual General Aviation (GA) and Part 135 Activity Survey for calendar year 2021. We need to hear from you - even if you did not fly any of the aircraft in your fleet in 2021 or filled out a similar survey last year.

> Please respond today at www.aviationfleetsurvey.org Use your 7-digit password to login: <<LFID>>

#### **ABOUT THE SURVEY**

The GA Survey is the only source of information on the size, activity, and characteristics of the GA fleet—how many aircraft are active, how many hours they fly, and how they are equipped. Information is aggregated and used by government agencies and industry to

- Compute safety metrics, such as fatal accidents rates
- Understand the impact of the GA industry on jobs, economic output, and investments in aviation infrastructure
- Track the success of safety initiatives, including avionics recommendations

WHY SHOULD I RESPOND? The FAA and industry need accurate data on a broad range of aircraft. Your participation is voluntary, but we need your help to accurately measure the GA fleet.

# QUESTIONS?

Answers to frequently asked questions are on the reverse of this letter. For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Steve Dickson Administrator

#### What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

#### Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

# Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2021.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

#### What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey help line, at 1-800-826-1797, or email: infoaviationsurvey@tetratech.com.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?

Office of the Administrator

800 Independence Ave., SW Washington, D.C. 20591

**Federal Aviation** Administration

March 18, 2022

Dear Aircraft Owner or Operator:

Recently we mailed you a consolidated survey form for the 2021 General Aviation and Part 135 Activity Survey. We have not yet heard back from you, and we would be happy to answer any questions regarding the questionnaire or the study itself.

> Please respond today at www.aviationfleetsurvey.org Use your 7-digit password to login: <<LFID>>

**ABOUT THE SURVEY** The GA Survey is the only source of information on the size, activity,

and characteristics of the GA fleet—how many aircraft are active,

how many hours they fly, and how they are equipped.

WHY SHOULD I RESPOND? The responses of multiple-aircraft owners or operators are extremely

important for accurately estimating general aviation and on-demand

Part 135 activity.

QUESTIONS? Answers to frequently asked questions are on the reverse of this

Federal Aviation Administration

March 25, 2022

Dear Aircraft Owner or Operator:

Please participate in the 2021 General Aviation (GA) and Part 135 Activity Survey. Our records indicate that you are an owner or operator of multiple aircraft. You are receiving a special summary survey so that you may report activity for your entire fleet, instead of completing a longer questionnaire for each of your aircraft.

> Please respond today at www.aviationfleetsurvey.org Use your 7-digit password to login: <<LFID>>

### ABOUT THE SURVEY

The GA Survey is conducted annually to measure the size, activity, and characteristics of the GA fleet.

- GA Survey data are used by the FAA to ensure aviation safety. Aviation associations and private industry use the data to address owners' needs and improve aviation technology.
- Results from past surveys are published online at http://www.faa.gov/data research/aviation data statistics/general aviation/.
- Your responses are confidential! Information is aggregated and individual responses are never shared with the FAA.

WHY SHOULD I RESPOND?

The FAA and industry need accurate data on a broad range of aircraft. Your participation is voluntary, but we need your help to accurately measure the GA fleet.

QUESTIONS?

Answers to frequently asked questions and contact information for assistance are on the reverse of this letter.

Thank you for your help with this important study!

Sincerely,

Steve Dickson Administrator

#### What does the FAA do with this detailed information?

**Federal Aviation** Administration

May 20, 2022

Dear Aircraft Owner or Operator:

800 Independence Ave., SW Washington, D.C. 20591

Do you have 15 minutes to spare? Thanks to the support and participation of the General Aviation (GA) community, the 2020 survey was a tremendous success. You can help us sustain that success! The survey form enclosed and available online is designed to minimize burden and still provide information to accurately measure the size and activity of the GA fleet.

> Please respond today at www.aviationfleetsurvey.org Use your 7-digit password to login: <<LFID>>

#### ABOUT THE SURVEY

The GA Survey is the only source of information on the size, activity, and characteristics of the GA fleet. The data are used to

- Compute fatal accident rates and other safety metrics.
- Understand how aviation impacts local economic growth, including jobs and household income.
- Determine funding for aviation infrastructure.

#### WHY SHOULD I RESPOND?

- The FAA and industry rely on accurate data for a broad range of aircraft across the National Airspace System.
- If none or just a few of your aircraft flew in 2021 that is important information!
- Your responses are confidential. Information is only reported in aggregate and results are publicly available.

# QUESTIONS?

For further assistance, please call 1-800-826-1797 or email infoaviationsurvey@tetratech.com. You can send questions to the FAA at GASurvey@faa.gov.

Thank you for your help with this important study!

Sincerely,

Warren Randolph Acting Executive Director, Accident Investigation and Prevention, AVP-1

#### What does the FAA do with this detailed information?

The information collected in this survey helps the FAA to understand more about general aviation activities, assess the impact of general aviation activities on the National Airspace System, and determine the need for increased traffic facilities and services. Federal, state, and local governments; general aviation associations; and private industry and individuals use the summary data for safety analyses, planning, forecasting, and research and development.

#### Will my name be associated with my survey responses?

ABSOLUTELY NOT! The information obtained in the survey will only be used for statistical purposes, and will be kept private to the extent permitted by law. FAA will not publish any reports or tables that would reveal specific information reported by an individually identifiable respondent. Names of individuals are never associated with responses. There is an identification number on your survey only so Tetra Tech, a professional research firm conducting the study for us, knows who should receive the survey.

# Why was I selected for this survey?

Your aircraft were selected from the Civil Aviation Registry. The Registry shows you as a registrant of these aircraft as of December 31, 2021.

Many aircraft were randomly sampled from the Civil Aviation Registry, but several groups were sampled at 100 percent to better understand general aviation activity of high-use groups. These groups include: FAR Part 135 aircraft, rotorcraft, turbine aircraft, aircraft five years old or newer, and Alaska-based aircraft.

### What if I completed a survey last year?

Even if you were sampled last year, it is very important that you respond to the survey this year.

Owners or operators of multiple aircraft represent a key portion of the general aviation population. The summary form is aimed at reducing the burden of reporting for multiple aircraft, thus encouraging maximum participation.

What should I do if I have a question about how to fill out the survey or have a question we haven't answered?

Please call the GA Survey help line, at 1-800-826-1797, or email: infoaviationsurvey@tetratech.com.

Has this survey been cleared by the Office of Management and Budget Paperwork Reduction Project?
