

LOGISTICS MANAGEMENT SPECIALIST

The Aviation Logistics Organization (ALO) is a mission support organization within the Office of Regions and Property Operations. We provide real estate and personal property support and services to the FAA through government and industry collaboration, horizontal integration, property management, facilities management and emergency readiness programs.

RESPONSIBILITIES

Logistics Management Specialists manage, advise, plan, and/or direct one or more of the following activities:

- Logistical Support Services
- Asset Management and Capitalization
- Inventory Management
- Personal Property Life-Cycle Management
- Personal Property Asset Disposal
- Personal Property Loans and Assets
- Agency-Wide Logistics Policies and Programs

QUALIFICATIONS

Qualifications vary according to the position.

Logistical Management Specialist positions require application of a broad knowledge of various logistics support activities including:

- Determination of requirements for funding, manpower, facilities, equipment, supplies, and services
- Design and development, procurement, production, storage, distribution, maintenance, transportation, utilization, and disposal of material
- Procurement or design and construction, operation, and maintenance

U.S. Citizenship is required for these positions
