

**U.S. DEPARTMENT OF TRANSPORTATION  
FEDERAL AVIATION ADMINISTRATION**

**Air Traffic Organization Policy**

**ORDER  
JO 7400.11H**

August 11, 2023

**SUBJ:** Airspace Designations and Reporting Points

---

**1. Purpose of This Order.** This order is published annually, which is incorporated by reference, to add all amendments to the listings of Class A, B, C, D, and E airspace areas; air traffic service routes; and reporting points as published by the Federal Aviation Administration (FAA) as final rules in the *Federal Register*.

**2. Audience.** Airspace and Aeronautical Operations personnel, Air Traffic Controllers, and interested aviation parties.

**3. Where Can I Find This Order.** You can find this order on FAA Air Traffic Plans and Publications website at [https://www.faa.gov/air\\_traffic/publications/](https://www.faa.gov/air_traffic/publications/), and FAA employees' website at [https://employees.faa.gov/tools\\_resources/orders\\_notices/](https://employees.faa.gov/tools_resources/orders_notices/).

**4. What This Order Cancels.** FAA Order JO 7400.11G, Airspace Designations and Reporting Points, dated August 18, 2022, is canceled.

**5. Effective Date:** September 15, 2023.

**6. Background.** FAA publishes final rules throughout the year that establish, amend, or revoke terminal and en route airspace areas, air traffic service routes, and reporting points, in the United States and its territories. The effective dates of final rules generally coincide with the periodic issuance of FAA's Aeronautical Products navigational charts. Due to the large number and frequency of changes to Title 14 Code of Federal Regulations (14 CFR) part 71, the Director of the Federal Register approved this incorporation by reference. For ease of reference, FAA is providing this compilation of airspace area designations, air traffic service routes, and reporting points effective or pending as of July 3, 2023.

FAA Order JO 7400.11H is available via the Internet at [https://www.faa.gov/regulations\\_policies/orders\\_notices/](https://www.faa.gov/regulations_policies/orders_notices/). Additionally, FAA periodically updates [https://www.faa.gov/air\\_traffic/publications/](https://www.faa.gov/air_traffic/publications/) (titled Airspace Amendments) to help inform interested parties of final rules issued effective or pending after July 3, 2023.

As FAA only revises this order annually, the order should be used for general reference only and not as a sole source of information where accurate positional data are required, e.g., video maps or letters of agreement. All positional data used are based on North American Datum of 1983. The use of this datum does not make substantive changes to any terminal or en route airspace area, air traffic service route, or reporting point. The FAA adopted and previously published all

substantive amendments to 14 CFR part 71 via previous editions of this order in accordance with administrative procedures in 5 U.S.C. sections 552 and 553.

**7. Request for Information.** For further information, contact the Federal Aviation Administration at Rules and Regulations Group, Office of Policy, Room 425, 800 Independence Avenue SW, Washington, DC 20591 or (202) 267-8783 or through our mailbox at 9-AJV-P-HQ-Correspondence@faa.gov.

**8. Distribution.** This order is available online and distributed electronically to all that subscribe to receive it through FAA's website at [https://www.faa.gov/regulations\\_policies/orders\\_notices/](https://www.faa.gov/regulations_policies/orders_notices/).

## Identifiers

List of Identifiers.....	I-1
--------------------------	-----

## **Subpart A – General**

### **1000. Airspace Classification.**

- (a) The airspace assignments described in Subpart A are designated as Class A airspace areas.
- (b) The airspace assignments described in Subpart B are designated as Class B airspace areas.
- (c) The airspace assignments described in Subpart C are designated as Class C airspace areas.
- (d) The airspace assignments described in Subpart D are designated as Class D airspace areas.
- (e) The airspace assignments described in Subpart E are designated as Class E airspace areas.
- (f) Airspace not assigned in Subpart A, B, C, D, E, or H of this order is uncontrolled airspace and is designated as Class G airspace. There is no airspace within the United States designated as Class F.

### **1001. Reporting Points.**

- (a) The reporting points listed in Subpart H of this order consist of geographic locations at which the position of an aircraft must be reported in accordance with Title 14 Code of Federal Regulations part 91, subpart B.
- (b) Unless otherwise designated, each reporting point applies to all directions of flight. In any case where a geographic location is designated as a reporting point for less than all airways passing through that point, or for a particular direction of flight along an airway only, it is so indicated by including the airways or direction of flight in the designation of geographical location.
- (c) Unless otherwise specified, place names appearing in the reporting point descriptions indicate VOR or VORTAC facilities identified by those names.

### **1002. Bearings, Radials, and Mileages**

All bearings and radials in this Order are true and are applied from point of origin and all mileages in this Order are stated as nautical miles (nm).

**1003. Overlapping Airspace Designations.**

(a) When overlapping airspace designations apply to the same airspace, the operating rules associated with the more restrictive airspace designation apply.

(b) Airspace Hierarchy. Within the airspace classes, there is a hierarchy and, in the event of an overlap of airspace: Class A preempts Class B, Class C, Class D, Class E, or Class G airspace. Class B preempts Class C, Class D, Class E, or Class G airspace. Class C preempts Class D, Class E, or Class G airspace. Class D preempts Class E, and Class G airspace. Class E preempts Class G airspace.

**Class A – Airspace****2000. General.**

Unless otherwise specified, the Class A airspace areas listed in Sections 2001-2003 consist of airspace extending upward from 18,000 feet MSL to and including flight level (FL) 600. Unless otherwise authorized, all persons must operate their aircraft under instrument flight rules in airspace designated as Class A and comply with §91.135 of the Code of Federal Regulations.

**2001. Contiguous United States.**

That airspace of the United States, including that airspace overlying the waters within 12 miles of the coast of the 48 contiguous states, from 18,000 feet MSL to and including FL 600 excluding the states of Alaska and Hawaii.

**2002. Alaska.**

That airspace of the State of Alaska, including that airspace overlying the waters within 12 miles of the coast, from 18,000 feet MSL to and including FL 600 but not including the airspace less than 1,500 feet above the surface of the earth and the Alaska Peninsula west of long. 160°00'00"W.

**2003. Offshore Airspace Areas.****Atlantic High**

That airspace extending upward from 18,000 feet MSL to and including FL 600 within the area bounded on the east from north to south by the Moncton FIR, New York Oceanic CTA/FIR, and the San Juan Oceanic CTA/FIR; to the point where the San Juan Oceanic CTA/FIR boundary turns southwest at lat. 21°14'21"N., long. 67°39'02"W., thence from that point southeast via a straight line to intersect a 100-mile radius of the Fernando Luis Ribas Dominicci Airport at lat. 19°47'28"N., long. 67°09'37"W., thence counter-clockwise via a 100-mile radius of the Fernando Luis Ribas Dominicci Airport to lat. 18°53'05"N., long. 67°47'43"W., thence from that point northwest via a straight line to intersect the point where the Santo Domingo FIR turns northwest

at lat. 19°39'00"N., long. 69°09'00"W., thence from that point the area is bounded on the south from east to west by the Santo Domingo FIR, Port-Au-Prince CTA/FIR, and the Havana CTA/FIR; bounded on the west from south to north by the Houston Oceanic CTA/FIR, southern boundary of the Jacksonville Air Route Traffic Control Center and a line 12 miles offshore and parallel to the U.S. shoreline.
