

Technology for today. Innovation for tomorrow. We make IT work.

FAA Information Technology (AIT) Privacy Compliance Management Careers

What inspires you?

- Do you enjoy working with innovative technology?
- Are you interested in aviation and/or the travel industry?
- Would you like to be part of a team whose mission is focused on safety and saving lives?

The FAA's Information Technology (AIT) team offers all of these things and more!

- Dynamic and exciting projects that you won't find anywhere else
- A variety of career tracks with opportunities for growth
- An extensive array of federal benefits, including work life-balance and a retirement pension

AIT Privacy Compliance Managers have a positive impact on critical initiatives at the FAA.

- Overseeing privacy program activities, policies, processes, and standard operating procedures.
- Providing guidance for the protection of Personally Identifiable Information (PII) and privacy records.
- Analyzing privacy requirements. Evaluating the long-term impact of privacy program goals in addition to the political, economic, and social consequences of changes in the organizational services provided.
- Working closely with FAA stakeholders to prepare and review privacy compliance documentation, including the Security Operations Center (SOC), Office of General Counsel, Public Affairs, Lines of Business, and Staff Offices.
- Performing compliance inspections and contract reviews. Participating in Plan of Actions and Milestones (POAM) management, audits, and associated tracking.
- Developing and recommending proactive solutions for current and potential privacy concerns.
- Creating and conducting privacy training.
