

Technology for today. Innovation for tomorrow. We make IT work.

FAA Information Technology (AIT) User Accessibility Careers

What inspires you?

- Do you enjoy working with innovative technology?
- Are you interested in aviation and/or the travel industry?
- Would you like to be part of a team whose mission is focused on safety and saving lives?

The FAA's Information Technology (AIT) team offers all of these things and more!

- Dynamic and exciting projects that you won't find anywhere else
- A variety of career tracks with opportunities for growth
- An extensive array of federal benefits, including work life-balance and a retirement pension

AIT user accessibility experts have a positive impact on critical initiatives at the FAA.

As an IT Specialist Applications Software, you can champion [Section 508](#) and Web Content Accessibility Guidelines (WCAG) which promote inclusivity and usability for all digital content, applications, and technology users. This is accomplished by:

- Fostering a culture of accessibility within the organization.
- Collaborating with other teams to integrate accessibility into projects and processes.
- Establishing and managing accessibility testing procedures and tools.
- Conducting regular accessibility audits and evaluations.
- Implementing and overseeing remediation efforts for user accessibility concerns.
