FY-2022 Supplemental Appropriation, Airport Improvement Program Anticipated Grants

NOTES

- List shown included as part of the Notice of Intent to Award approved by Secretary of Transportation on June 29, 2023.
- Anticipated Grant Amount is based on corrected AIP Federal Share
- Official grant award announcements will be made through DOT's normal Airport Improvement Program Congressional notification process.
- Figures shown may include costs other than hard construction (e.g., formulation costs such as planning or environmental, engineering design, contract administration, etc.).
- Grant amounts subject to change once final bids are received.
- Many of the projects will be able to proceed to construction bid and grant award in the near term. Others, however, are still finalizing legal or administrative requirements, and may not be ready for grant award until later in FY-2023 or FY-2024.

FY-2022 Supplemental Appropriation, Airport Improvement Program Anticipated Grants

NOTES

- List shown included as part of the Notice of Intent to Award approved by Secretary of Transportation on June 29, 2023.
- Anticipated Grant Amount is based on corrected AIP Federal Share
- Official grant award announcements will be made through DOT's normal Airport Improvement Program Congressional notification process.
- Figures shown may include costs other than hard construction (e.g., formulation costs such as planning or environmental, engineering design, contract administration, etc.).
- Grant amounts subject to change once final bids are received.
- Many of the projects will be able to proceed to construction bid and grant award in the near term. Others, however, are still finalizing legal or administrative requirements, and may not be ready for grant award until later in FY-2023 or FY-2024.

- Many of the projects will be able to proceed to construction bid and grant award in the near term. Others, however, are still finalizing legal or administrative requirements, and may not be ready for grant award until later in FY-2023 or FY-2024.

									Anticipated Grant
RO	ADO	State	City	LOCID	Airport	Hub Type	Service Level	·	Amount
								This grant funds the renovation of the airport's Terminal A Roof, which will	
								be constructed with sustainable materials to address climate challenges,	
					San Antonio			address existing leaks, and enhance energy efficiency in the primary	
SW	TEX	TX	San Antonio	SAT	International	М	P	terminal building.	2,220,750
								This grant funds the design and construction of airfield drainage	
								improvements to mitigate existing storm water runoff inefficiencies, which	
								have contributed to poor pavement conditions and deteriorating subsurface	
								conditions on the mid-field general aviation ramp. This project will address	
								existing pavement issues and mitigate surfaced run offs and potentially	
					Sulphur Springs			ponding that may impede Taxiway A with future development in accordance	!
SW	TEX	TX	Sulphur Springs	SLR	Municipal	-	GA	with FAA airfield drainage design guidance.	1,350,000
								This grant funds a portion phase 3 of 4 that will construct a new airfield	
								drainage system, which will address climate change challenges by mitigating	
								reoccurring flooding that causes closures of taxiways, aprons, and	
SW		LA	New Orleans	NEW	Lakefront	-	R	occasionally runways.	2,145,750
WP	HNL	GU	Tamuning	GUM	Guam International	N	P	Conduct Airport energy Efficient Assessment	500,000
								This project will construct a new two-story security screening checkpoint	
								facility at Kahului Airport at the south end of the ticket lobby to house	
								multiple TSA screening lanes. The queuing area, security screening	
								checkpoint, and TSA support spaces will be located on the second level, and	
								building support and tenant shell spaces will be located on the ground level.	
								A pedestrian bridge will connect the new checkpoint facility to Holdroom A	
								and will span over the existing service road. This project will also include	
								enclosure and air conditioning of the existing TSA Checkpoint and	
								improvements at the existing Group Departure canopy adjacent to the new
