

CACI – Breast Cancer Worksheet

(Updated 04/27/2022)

To determine the applicant's eligibility for certification, the AME must review a [current, detailed Clinical Progress Note](#) generated from a clinic visit with the treating physician or specialist **no more than 90 days prior** to the AME exam. If the applicant **meets ALL the acceptable certification criteria** listed below, the Examiner can issue. Applicants for first- or second-class must provide this information annually; applicants for third-class must provide the information with each required exam.

AME MUST REVIEW	ACCEPTABLE CERTIFICATION CRITERIA
The pathology showed: Carcinoma in Situ (Tis), Stage 0; Ductal Carcinoma in Situ (DCIS); Lobular Carcinoma in Situ (LCIS); Paget disease of the breast (Tis)	<input type="checkbox"/> Yes
The treating physician's current, detailed Clinical Progress Note verifies: <ul style="list-style-type: none"> • Condition is stable with no spread or reoccurrence and no evidence of disease (NED). • Radiation therapy (if any) is completed. • If surgery has been performed, the airman is off all pain medication(s), has made a full recovery, and has been released by the surgeon. • The airman is back to full, unrestricted activities and no new treatment is recommended at this time. 	<input type="checkbox"/> Yes
Any evidence of: <ul style="list-style-type: none"> • Stage IA or higher; • Invasive or metastatic disease; or • Use of chemotherapy for this condition at any time 	<input type="checkbox"/> No
Current medication(s): Approved medications include: tamoxifen (Nolvadex); Aromatase inhibitors: anastrozole (Arimidex), letrozole (Femara), or exemestane (Aromasin)	<input type="checkbox"/> None; or <input type="checkbox"/> An approved medication that is being well tolerated with no side effects
Notes: If it has been 5 or more years since the airman has had any treatment (surgery or radiation) for this condition, has no history of metastatic disease, and no reoccurrence, CACI is not required. Note this in Block 60.	

AME MUST NOTE in Block 60 one of the following:

- CACI qualified breast cancer (Documents do not need to be submitted to the FAA.)
- Has current OR previous SI/AASI but now CACI qualified breast cancer.
- NOT CACI qualified breast cancer. I have deferred. (Submit supporting documents.)
