Submit a Configuration Change Request (Vitals, OPSS, Contractors) in SAS

↓

FAA PI reviews, then accepts or returns Configuration Change Request in SAS

↓

FAA PI may add actions to Configuration Change Request in SAS

← Certificate Holder submitted a CCR, ED DCT *is not* requested, FAA completes any necessary actions

→ Certificate Holder submitted a CCR, ED DCT *is* requested, CH completes and submit ED DCT(s) in SAS

Left branch:

FAA PI dispositions the Configuration Change

Right branch:

An internal EDA must be added to the CAP to apply the certificate holder's ED DCT data in SAS

↓

FAA reviews the DCTs submitted by the External User and accepts/completes the ED DCT in SAS

↓

FAA completes all actions

←

FAA PI dispositions the Configuration Change
