Pre-Award Briefing

SETIS
INNOVATION STARTS HERE

Systems Engineering and
Technical Innovative Solutions

April 2024

Welcome to SETIS

Agenda

- SETIS Overview
- Pre-Award Process
 - Scope
 - Engagement Process
 - Task Order Competitions
- Post-Award Administration
- Background Information
 - Awardees and Subcontractor Teams
 - Points of Contact

SETIS Overview

- Systems Engineering and Technical Innovative Solutions (SETIS) is a new contract portfolio awarded as a 10-year indefinite delivery/ indefinite quantity (IDIQ) contract to 10 small and 5 large business prime multi-vendor teams with a shared ceiling value of approximately \$2.3 billion
- SETIS is one of the largest contract portfolios the FAA has ever awarded and replaces and consolidates the SE2020 and SE2025 contracts
- SETIS provides a broad range of research, service analysis, strategic planning, systems engineering, technical, financial and programmatic support services to support NAS, Mission Support systems, and other related aviation mission objectives
- SETIS is open to NextGEN and is an FAA-wide contract vehicle
- The SETIS contracts were awarded with a period of performance from July 1, 2022 to June 30, 2032

SETIS Fast Facts

Prime Awardees

Small Business

- A3 Technology
- Advanced Sciences and Technologies (AS&T)
- ATAC Corporation
- Cavan Solutions
- Concept Solutions
- Crown Consulting
- Enroute Computer Solutions
- JMA Solutions
- Mosaic ATM
- Veracity Engineering

Large Business

- Booz Allen Hamilton
- LS Technologies
- Noblis
- Oasis Systems
- SAIC

Total No. of Contract Awardees

280 (includes primes and subcontractors)

No. of Task Orders Awarded to Date

66

Value of Awards to Date

\$703 million

Total Award Baseline

\$2.3 billion

Period of Performance

10 yrs (3 year Base period with a 3 year option period and two 2 year option periods)

Standard Terms

Time & Materials, task order, term contract with allowance for cost plus - fixed fee, firm fixed-price, labor, cost-plus award fee components

SETIS Benefits

- No Fee for using the SETIS portfolio
- SETIS Program Office (PO) provides certified CORs to manage TO administration, enabling our Customers to focus on task objectives. PO responsibilities include:
 - Invoice Acceptance
 - Maintaining Financial Records
 - CPARS entry
- Access to top industry talent with both AC and DC based vendors and other locations
- Pre-qualified, integrated and experienced multi-vendor teams
- Provides comprehensive System/AMS Lifecycle breadth of support services from initiation to implementation
- Streamlined competition process expedites task order awards
- Competitive pricing providing Best Value for the Government
- Engagement Advisors assigned to support development of PWS, IGCE and CIO IT Procurement Review and Approval form
- Contractual Advisors assigned to provide support during Technical Evaluation
- Pre-award SCRB review replaced with post-award Quarterly CFO review
- ASRB process conducted by the Contracting Office

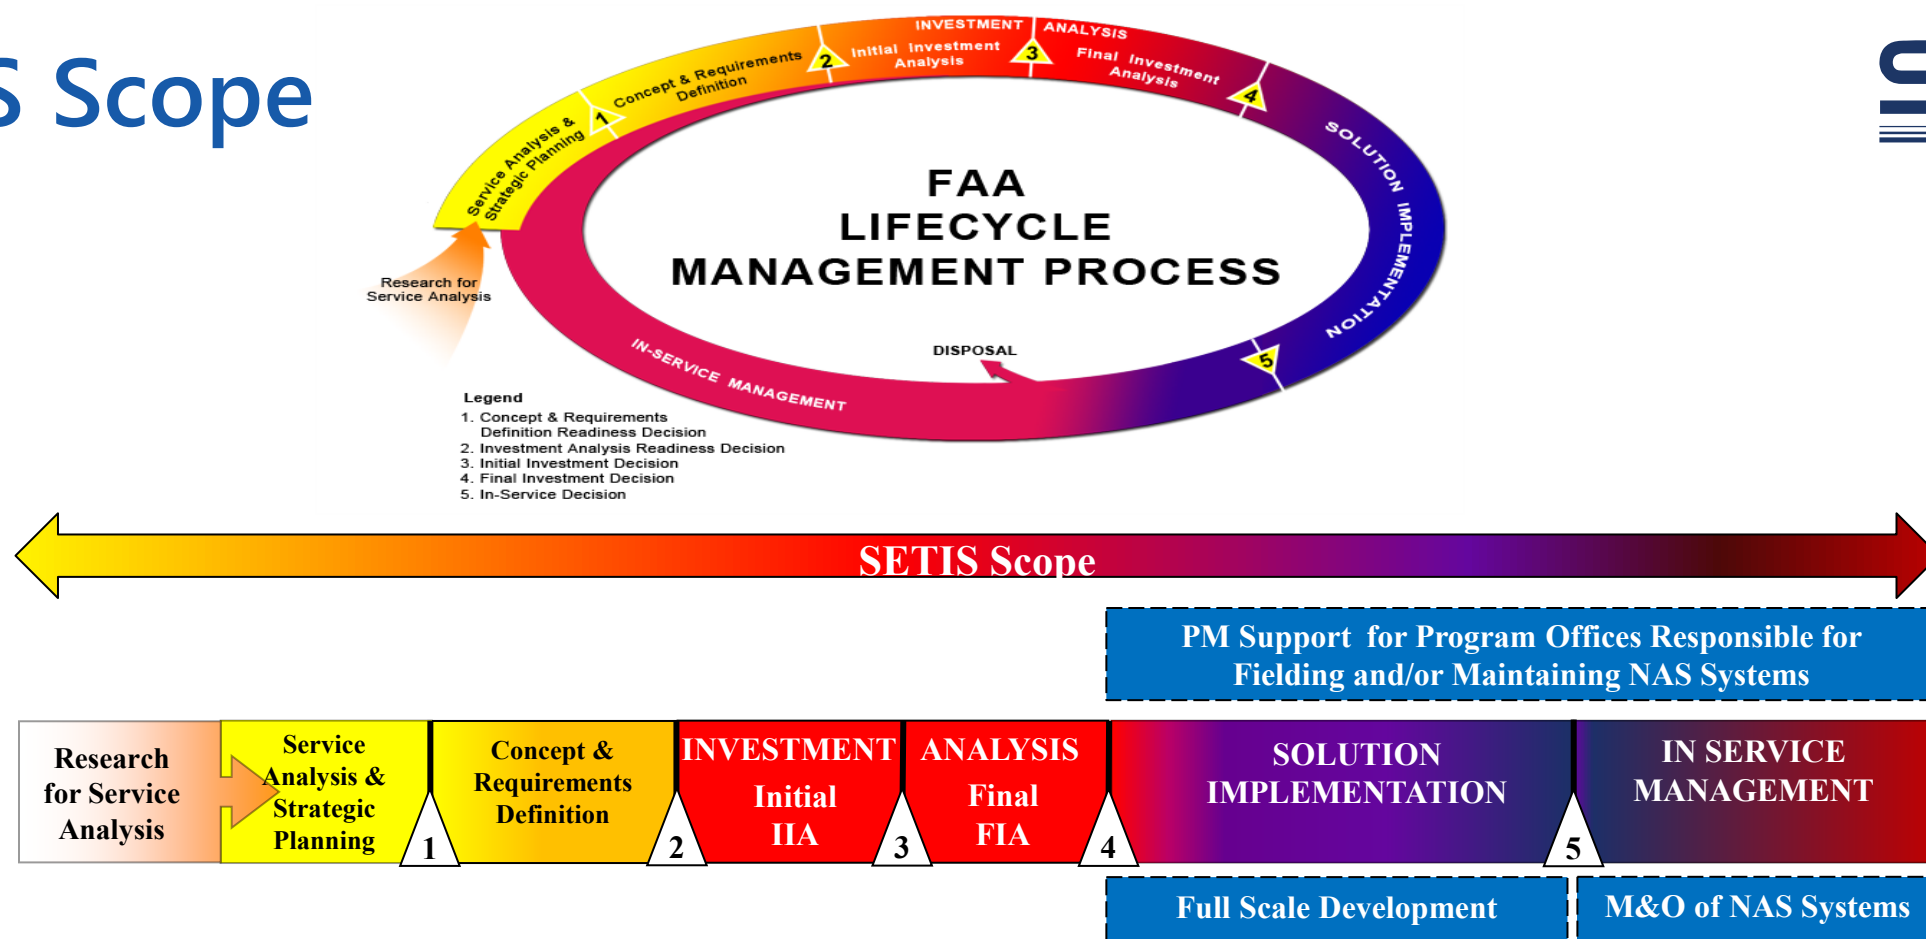

SETIS Program Governance

- **Customer [Technical Customer (TC)]** – define Task Order requirements, provide funding (generally), oversee day to day performance, and review vendor work products and deliverables
- **SETIS Program Office** – ensure orderly and timely control and administration of SETIS contracts generally and Task Orders specifically
 - Program Manager – responsible for Program oversight
 - CORs – provide technical direction and financial oversight
 - Engagement Team – assists customers in preparing PWS, IGCE, CIO Form and PR and answering questions from initial meeting through Task Order award
- **Contracting Office** – provides full suite of procurement and contract management actions
- **Legal** – provides full suite of program and contract advisory functions

SETIS Scope

SETIS Scope

SETIS Scope*** = AMS Lifecycle – Full Scale Development – Maintenance & Operations of NAS Systems – Program Management Support for Program Offices responsible for fielding and/or maintaining NAS Systems

**Note SETIS also includes support for activities outside the scope of the AMS Lifecycle for NAS, Mission Support, and Aviation Related Activities*

***SETIS is not limited to the NextGEN organization*

SETIS Tasking Requirements

- System Engineering Management
- Innovation Support Services
- System Requirements and Definition
- Analysis, Design, and Integration
- Value Engineering
- Supportability, Maintainability, and Reliability Engineering
- Quality Assurance and Quality Control Program
- Configuration Management
- NAS and Mission Support Information Security Support
- Technical, Engineering, and Scientific Support
- System Safety Engineering and Management
- Other System Engineering Specialties
- NAS and Mission Support Enterprise Architecture Support
- Technology Opportunities Support
- Test Resources
- Lab Facilities
- Investment Portfolio Management
- Lifecycle, Earned Investment and Business Case Analyses
- Forecasting and Strategy Development
- Business Planning
- Performance Analysis
- NAS Modernization Information Technology (IT) Support
- Policy Studies
- Program Planning and Financial Management
- Program Management Support
- Program Management System Tools
- Information Systems Development and Maintenance
- Training
- Business Process Re-engineering (BPR)
- Aircraft Certification
- Software Engineering
- Verification & Validation (V&V) Program
- Horizon Scanning, Technology Scouting, and Market Analysis
- Demand for National Airspace System (NAS) Services Support
- Identified Projected Supply of Services
- Mission Needs Analysis & Assessment Support
- Future NAS Research & Development Portfolio Optimization

SETIS Core and Additional Capabilities

Core Capabilities

- Avionics Systems
- Commercial Space
- Cybersecurity
- Enterprise Architecture Products & Enterprise Services
- Integrated Laboratories & Operations
- Trajectory Based Operations (TBO)
- Unmanned Aircraft Systems (UAS)
- Air Traffic Management (ATM) Automation
- Communications, Navigation, and Surveillance (CNS)

Additional Capabilities

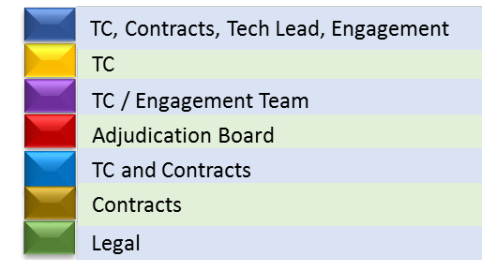

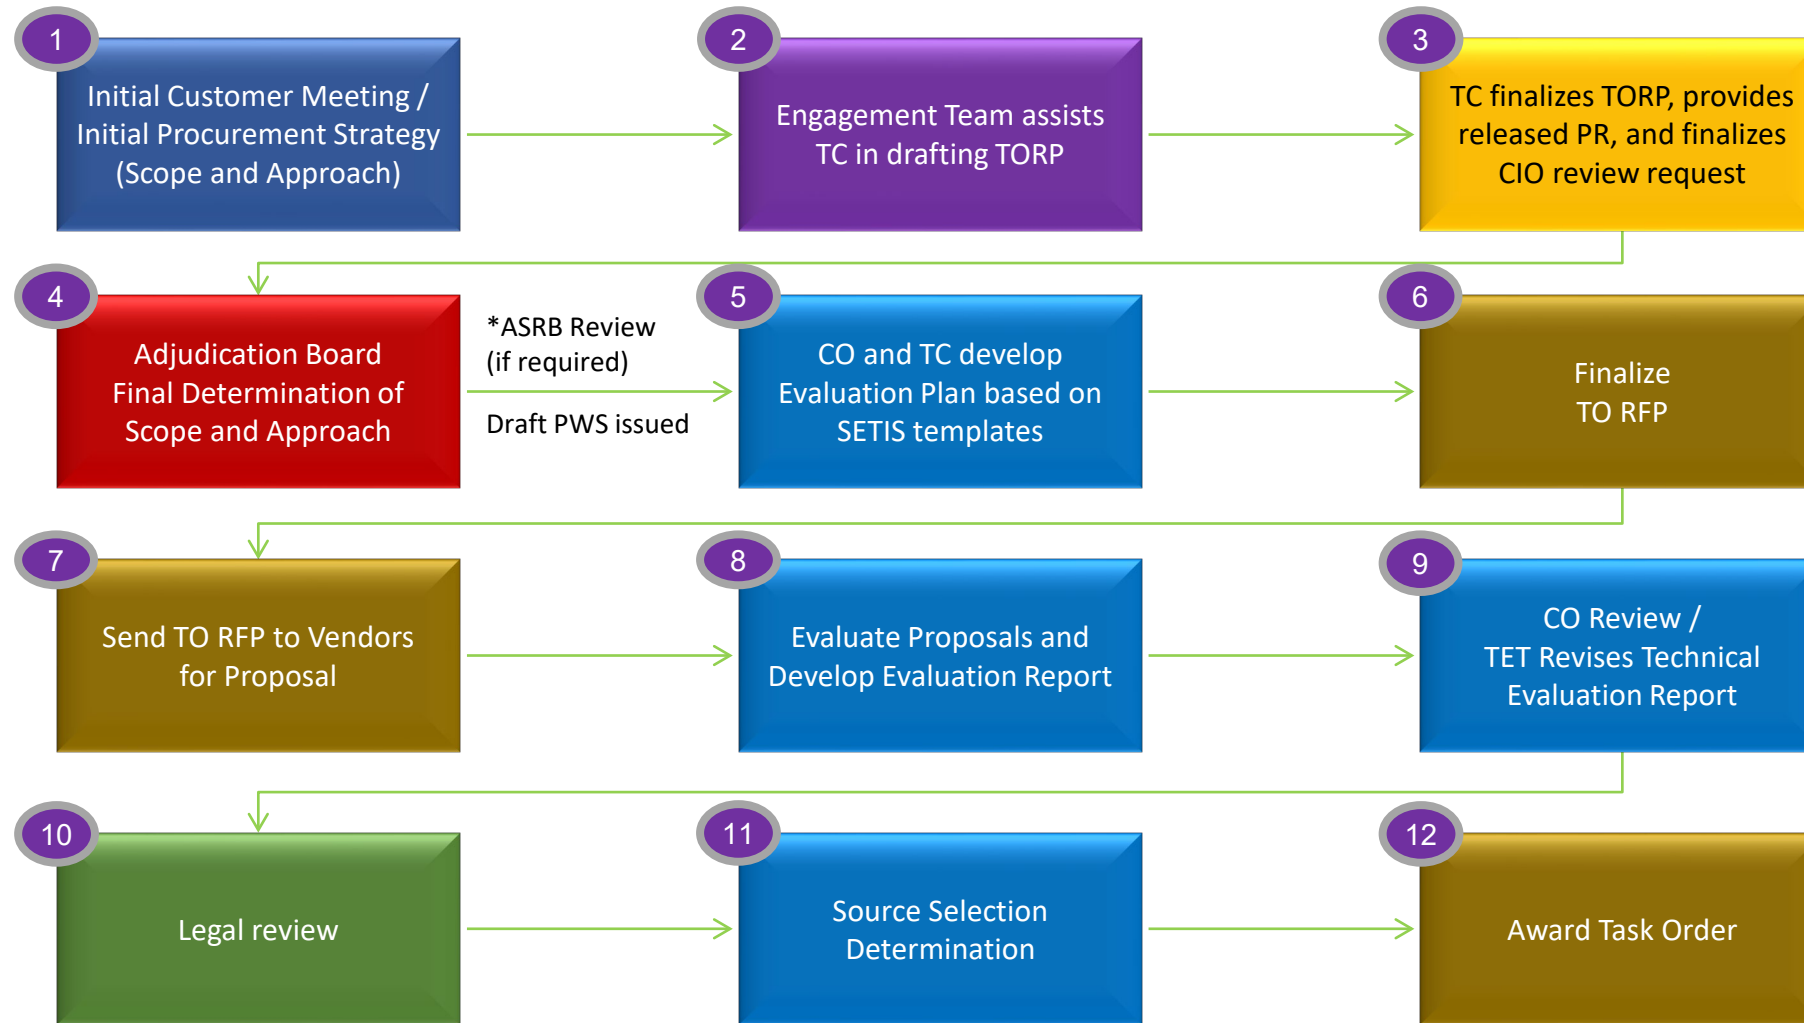

- Air Traffic Rules and Procedures
- Airspace Design and Analysis
- Cost Benefit Analysis
- Modeling and Simulation
- Human Factors
- Human-in-the-Loop Simulations
- Information Technology
- Investment Analysis
- NAS Air Traffic Facilities
- Information Management Services (IMS)
- Operational Concept Development and Validation
- Aerospace Medical
- Program Planning and Financial Analysis
- Security
- Service-Oriented Architecture
- Standards Development
- NAS System Safety
- Weather
- Environmental Analysis
- Systems Engineering & Integration
- William J. Hughes Technical Center (WJHTC) Laboratory Operations
- Airplane Modernization and Manufacturing (Large – 14 CFR Part 25 and other applicable Parts) Support Services*
- Airplane Modernization and Manufacturing (Small - 14 CFR Part 23 and other applicable Parts) Support Services*
- Large Scale Demonstrations*
- Rotorcraft Modernization and Manufacturing (Large – 14 CFR Part 29 and other applicable Parts) Support Services*
- Rotorcraft Modernization and Manufacturing (Small – 14 CFR Part 27 and other applicable Parts) Support Services*
- Simulators, Airplane (Large – 14 CFR Part 25 and other applicable Parts) Support Services*
- Simulators, Airplane (Large – 14 CFR Part 25 – Level C and D Fidelity and other applicable Parts) Support Services*
- Simulators, Rotorcraft (Large – 14 CFR Part 29 – Level C and D Fidelity and other applicable Parts) Support Services*
- System of Systems (SoS) Integration*
- Intelligent Automation and Artificial Intelligence (IAAI)/Machine Learning Systems
- Aviation Safety and Certification
- Performance-Based-Navigation (PBN)
- Cloud Computing
- Data Analytics (DA)

**Denotes Capabilities not required for
Small Business Primes and their sub-teams*

Engagement Process

SETIS Engagement Process – Competition

Task Order Competition Milestone Schedule

The following Milestone Schedule is an estimate based on prior actual awards and is contingent upon completion of previous milestones by the Projected Date.

19 - 22 weeks	Milestone	Projected Date	Workdays	Responsibility	PMO & TC*
	Finalized PWS & IGCE, Released PR and CIO IT Procurement form submitted	2/8/24		TC*	
	Adjudication Meeting	2/15/24	5	SETIS PMO, CO & TC	
	ASRB Approval (\$10M and above)**	3/7/24	15	CO	
	Prepare TO RFP	3/14/24	5	CO	
	TO RFP Approval	3/21/24	5	CO	
	Release TO RFP	3/28/24	5	CO	
	Proposals Submitted	4/18/24	15	Vendors	
	Individual Tech Eval Completed	4/25/24	5	TC & Evaluators	
	Technical Consensus Completed	5/2/24	5	TC & Evaluators	
	Technical Report Completed	5/9/24	5	TC & Evaluators	
	Cost Evaluation Completed	5/2/24	10 from Proposal	CO	
	CO Review and Revise Technical Report	5/23/24	10	CO & Evaluators	
	Legal Review	6/13/24	15	Legal	
	Address Comments and Finalize Report	6/27/24	10	CO & Evaluators	
	SSO Meeting	7/11/24	10	CO & TC	
	CO Preparation for Award	7/20/24	7	CO	
	Projected TO Award Date	7/20/24	0	CO	
	<i>Work Days from ASRB Approval/Adjudication to Award:</i>		97 to 112**	(Approx. 19 to 22** weeks)	

**Note the TC is supported by the SETIS Engagement Team to complete these items*

***Note for TORPs not requiring ASRB, the TO Award timeframe is 19 weeks (97 workdays) from Adjudication to Award Requirements above \$25M will require approximately 32 weeks to award after the ASRB meeting for additional CO and Legal review and documentation (not including potential risk or vendor protest)*

TO Award Milestone Schedule Commitments

TO Award Milestone Schedule requires commitment by the Customer in these areas:

- Finalize PWS, IGCE, CIO Authorization form, and released PR assisted by the Engagement Advisor (EA)
- Attend Adjudication Board meeting and incorporate comments as appropriate assisted by the EA
- Finalize TO RFP and Evaluation Factors working with the CO
- Respond to pre-proposal questions according to schedule
- ***Identify and commit Technical Evaluation Team based on Evaluation Schedule provided by CO***
- Complete the Technical Evaluation and Consensus assisted by the Contractual Advisor on schedule
- ***Clearly substantiate all evaluation ratings in the Technical Evaluation Report for each offeror's proposal in accordance with the TO RFP instructions***
- Rate the Technical Approach and Staffing Plan
- Attend the Source Selection Official meeting with the CO and assist in resolving any issues that may arise
- Attend Technical Customer Training and TO Kickoff Meeting

Systems Engineering and Technical Innovative Solutions (SETIS) Contracts

What is SETIS?

- SETIS is the follow-on vehicle to the [SE2020 and SE2025 contracts](#), which provides a broad range of research, service analysis, strategic planning, systems engineering, technical, financial, and programmatic support services, and other aviation related support services, that will enable the FAA to accomplish its NAS modernization, Mission Support, and other aviation related mission objectives.
- SETIS is an IDIQ-based contract portfolio which issues work to multi-vendor teams via Task Orders with a Performance Work Statement. Task Orders are typically multi-year (base + one year options) and are funded by any combination of Ops, F&E or RE&D. Multiple funding types on one Task Order is supported.
- SETIS portfolio includes both Large Business and Small Business vendors.

How can SETIS help you?

- Supports all FAA lines of business and staff office's current and future technical needs of NAS modernization, Mission Support, and other aviation related mission objectives.
- Provides access to trusted and readily available vendor teams vetted with a proven record of excellent performance capable of delivering the full suite of NAS-related capabilities.
- Fosters small business's ability to provide specialized technical skills.
- Offers multiple contract types with performance based solutions.

Web Site address: <http://www.faa.gov/go/SETIS>

Initial Customer Meeting

Meeting Agenda

- Customer Requirements Discussion
- Initial Procurement Strategy
 - Scope: Research or Systems Engineering
 - Award Approach: Small Business Set-aside Competition or Full and Open Competition
- Pre-Award Briefing
 - Scope
 - Task Order Competitions
 - Engagement Process
- Initial Milestone Pre-Award Schedule
- IGCE Template based on Initial Procurement Strategy
 - Small Business Set-aside IGCE (Small Businesses only) vs. Full and Open IGCE (Large and Small Businesses) due to differing vendor labor rate schedules
 - For new TOs, the Labor Cost Estimate is based on the average ceiling labor rate across all SETIS vendors for that labor category/level
 - For follow-on TOs, the IGCE will be compared to previous actual invoiced costs for cost realism
 - Vendor proposals may differ from the IGCE due to the average ceiling labor rate used as the basis of estimate

Task Order Requirements Package

- Task Order Requirements Package (TORP) consists of:
 - Performance Work Statement (PWS)
 - Independent Government Cost Estimate (IGCE) using J005 Labor Category definitions
 - Released Procurement Request (PR) following SETIS PR creation instructions
 - Chief Information Office (CIO) Form for IT services, HW, SW, etc. greater than \$250K
- TORP contains Sensitive Unclassified Information (SUI) and is For Official Use Only not to be shared with anyone except FAA employees in your organization without express written approval by the SETIS PM
- Do not share your draft/final PWS or IGCE with contractor support as there may be a potential Organizational Conflict of Interest (OCI)/Personal Conflict of Interest (COI)
- SETIS Engagement Advisor will work with your organization to develop the TORP for your new requirements

Adjudication Board (AB) Meeting

Meeting Agenda

- Funding Review
- Customer Requirement
 - PWS Review
 - IGCE Review
 - Data Rights
- Final Procurement Strategy Determination
 - Scope: Research or Systems Engineering
 - Award Approach: Small Business Set-aside Competition or Full and Open Competition
- Contract Type Determination
- OCI/Personal COI Review
- Identify Technical Evaluation Team
- Next Steps

Funding Guidance

- No Fee for using the SETIS portfolio
- Incremental funding is accepted subject to applicable fiscal law for severable service task orders
 - PR MUST BE created and released prior to the Adjudication Board meeting
 - Minimum 6 months funding required (~ ½ of Year 1 cost estimate)
 - A TO may have multiple Funding Types (e.g., F&E, RE&D, Ops); however, the TO must be structured to accept this prior to initial award
 - Once awarded, with limited exceptions a TO may not add/change Funding Type due to the Pick and Stick rule per CO/Legal
 - TOs may be created with a performance period of more than 1 year
 - Multiple-Years TOs are generally awarded with a one-year Base and one-year Options for the out years

Fiscal Law Overview

- Antideficiency Act states the Government may not: obligate, spend, authorize obligations, or authorize expenditures...***Without having sufficient funds***
- Appropriations
 - Ops Funded: two (2) year appropriation, available for obligation during the fiscal year provided and subsequent fiscal year only
 - Crossing Fiscal Years: severable services may cross fiscal years only if the period of performance does not exceed one (1) year [the 12-month rule]
 - F&E and RE&D Funded: multiple year appropriations available for obligation for a period of up to three (3) fiscal years
 - The Task Order period of performance - not the obligation date of the funds - determines how far the funds may be used
 - Example: PR with funds expiring for obligation in September 2024 on current Option Period running from April 15, 2024 to April 14, 2025. Funds may cross fiscal year; however, funds must be expended by April 14, 2025 as cannot carryover to the next Option Period.

Fiscal Law Overview (continued)

- Bona Fide Needs Rule
 - Funds only available for definite period of time to meet real needs of that period
 - Analysis focuses on timing of obligation and whether the obligation is for a current Government need
- Severable Services
 - Services can be separated into components that independently provide value and meet an agency need
 - FUNDING: may be incrementally funded
 - Majority of TOs are severable
- Non-Severable Services
 - Services produce a single or unified outcome, product, or report
 - FUNDING: must be fully funded with funds available for obligation at the time of execution

Task Order Funding

- Post-Award Funding
 - CORs will contact TC when remaining funding reaches 40%
 - CORs need a released PR no later than 20 workdays prior to funding depletion date
 - Providing a released PR in a timely manner will avoid a break in service
 - Incremental Funding requires a Modification Package
- Funding Year considerations
 - Expiring funding limitations, i.e., may not carryover funding beyond current Option period
 - F&E and RE&D may be obligated during 3-year period
 - Ops may be obligated during 2-year period

Pre-Award Communications

- Engagement Team will provide each customer a status update on a bi-weekly basis
- A revised TO award schedule will be distributed to the Customer for planning purposes once the TO RFP is released
- Customer may contact the Engagement Advisor to request the latest status update at any time

SharePoint Access

- SharePoint access will be provided to the Technical Customer during the Pre-Award process a few weeks prior to award
- SharePoint Training slides will be provided by the Engagement Team
- Technical Customers can access the awarded Task Order and TC Nomination Form via SharePoint

Technical Customer Orientation Training

- SETIS Technical Customer Orientation Training Class conducted quarterly
- Register thru eLMS: Course# FAA30202917
- Course outcomes include:
 - Understanding of Technical Customer roles/responsibilities
 - Understanding of basic Contractor Performance Monitoring
 - Understanding of Invoice Payment process
 - Understanding of Deliverables Acceptance purpose and process
 - Understanding of Resume Approval process
 - Understanding of approval of Contractor Training, Travel and ODCs
 - Understand key concepts of Appropriations Law related to contract funding

Vendor Applicant Process (VAP) Requirement

- Only contractors who require routine physical access to an FAA facility, access to the FAA network, or access to FAA SUI information need to be submitted into the VAP system to complete the background investigation process
- TC identifies labor categories requiring a VAP as part of the PWS development
- Upon Task Order award the vendor will receive instructions from the COR regarding which contractors must be submitted into the VAP
- Investigation timelines can vary and may take multiple weeks, so recommend planning for TO award four weeks prior to TO Start Date

Task Order Competitions

Task Order Award Approach

- CO determines acquisition strategy for each TO on a case-by-case basis
- Competitive Award is the preferred acquisition strategy
- Provides Best Value to the Government
- Solicitations distributed to all vendors (either as a Small Business competition or as a Full and Open competition for both Small and Large Business vendors)
- Plan for TO award four weeks prior to TO Start Date to allow for resume and suitability approvals
- Once source selection determined, no protest recourse for TOs below \$25M

Task Order Competitions

- Enables customers to review multiple proposals and determine best technical approach
- Evaluation plan templates and examples speed award process
 - Customer identifies the Technical Evaluation Team
 - Technical Approach typically limited to 10 pages in length plus requested resumes
 - Staffing Plan and requested resumes
 - Technical Evaluation Team typically consists of 3 FAA employees with additional advisors as needed
 - Number of proposals typically restricted to one for each prime vendor

Acquisition Strategy Review Board (ASRB)

- ACQ-1 Policy applies to all FAA support service requirements **\$10M and above**
- Assure selection of the best contract vehicle to meet the agency's needs for support services and complements the CFO review process
- Contracting Office develops ASRB package and briefing based on finalized PWS, IGCE, CIO Authorization form, and fully released PR
- Finalized PWS, IGCE and fully released PR required to develop ASRB package and briefing
- Briefing conducted by the CO to the ASRB Board members

Contract Type

Contract type is determined by the CO

- Time and Materials (T&M)
- Firm Fixed Price (FFP)
- Cost Plus Fixed Fee (CPFF)
- Combination/Hybrid

Post Award Administration

Post Award Support

- Dedicated COR provides post-award support
 - Proactive TO Administration
 - Maintaining Financial Records
 - Invoice Acceptance
- Monthly contract status reports provided to customers
- TO Performance Management with PBCM and CPARS (above \$2M)
- New Mod Request form
 - Specifies the impacts of the Mod to ensure all required changes are identified
 - Comprehensive to ensure requirements are clearly understood
- SharePoint Deliverables Tool formalizes review and acceptance of contract deliverables
- Acquisition planning and forecasting
- Customer satisfaction and feedback

Performance Based Contracting

- All Task Orders operate under Performance Based Contracting principles
- Task Order requirements are defined in a Performance Work Statement (PWS)
- Each PWS includes a Quality Assurance Surveillance Plan (QASP)
- TCs are required to evaluate vendor performance on a quarterly basis using an information tool keyed to the QASP
- Vendor performance issues are directed to COR and CO for resolution
