

Federal Aviation Administration

Descripción del proyecto

Aeropuerto Internacional O'Hare de Chicago Evaluación ambiental del plan del área de terminales y de los procedimientos de tráfico aéreo

¿Por qué la FAA está realizando una evaluación ambiental?

La FAA está llevando a cabo una Evaluación Ambiental para estudiar los cambios propuestos para el Aeropuerto Internacional O'Hare de Chicago.

El Departamento de Aviación de la Ciudad de Chicago propone realizar estos cambios:

- Plan del área de terminales
- Proyectos del Programa de mejoramiento económico
- Desarrollos hoteleros
- La FAA propone realizar este cambio:
- Implementar de forma permanente los procedimientos de aproximaciones desplazadas (en ángulo) en O'Hare para la pista de aterrizaje y despegue 10R/28L

¿Qué es una evaluación ambiental?

- Una evaluación ambiental es un documento público que proporciona información y análisis ambiental para poder determinar las vías de avance de un proyecto propuesto.
- La FAA prepara la evaluación ambiental en el marco de la Ley Nacional de Política Ambiental, la Ley Nacional de Preservación Histórica, la Ley de Agua Limpia, la Ley de Aire Limpio y otras leyes aplicables.
- Esta evaluación determina si un proyecto propuesto puede afectar significativamente al medioambiente.
- Una evaluación ambiental ayuda a determinar si la FAA tendrá que llevar a cabo una Declaración de Impacto Ambiental o emitir un Dictamen de Ausencia de Impacto Significativo para un proyecto propuesto.

¿Cómo participa el público en esta evaluación ambiental?

- Estudio de alcance: la FAA solicita la opinión del público y de otras agencias para definir la gama de cuestiones ambientales y las posibles alternativas que se estudiarán en la evaluación ambiental. La FAA abrió un período de comentarios públicos de 45 días para el proceso del estudio de alcance de este proyecto, del 25 de mayo al 9 de julio de 2021.
- Consulta y coordinación: la FAA coordina y consulta con otros agencias a lo largo del proceso de evaluación ambiental, como funcionarios federales, estatales, tribales y locales.
- Comentarios sobre la versión preliminar de la evaluación ambiental: la FAA invitará al público y a otros organismos a comentar la versión preliminar de la evaluación ambiental y responderá a los comentarios en la evaluación ambiental definitiva.

Próximos pasos

- El público tendrá la oportunidad de comentar la versión preliminar de la evaluación ambiental.
- Las respuestas de la FAA a los comentarios sobre la versión preliminar de la evaluación ambiental se incluirán en la evaluación ambiental definitiva.

¿Por qué se proponen estos proyectos?

Las mejoras en O'Hare son necesarias para disponer de zonas adecuadas de terminales, puertas de embarque y plataformas, y para dar cabida de forma eficiente a la actividad existente y prevista. El rango de proyectos tiene cinco objetivos principales:

- Proporcionar instalaciones actualizadas que cumplan con las pautas recomendadas por el sector.
- Mantener la independencia financiera y cumplir con las obligaciones financieras.
- Reducir al mínimo el tiempo de rodaje de las aeronaves.
- Consolidar y reubicar el estacionamiento y el control de los empleados, el procesamiento de mercancías y la retención de vehículos comerciales fuera del núcleo de las terminales.
- Mantener la capacidad operativa y evitar retrasos.

¿Cuáles son las medidas federales propuestas?

- Aprobación por parte de la FAA del Plan de Diseño del Aeropuerto que describe los proyectos propuestos.
- Determinación por parte de la FAA de la elegibilidad de los proyectos propuestos para la financiación federal en el marco del Programa de Mejoras Aeroportuarias y para imponer y expandir la tarifa de uso aeroportuario.
- Mantenimiento de los procedimientos de control del tráfico aéreo y de gestión del espacio aéreo previamente aprobados para la circulación segura y eficaz del tráfico aéreo.

Hay 35 proyectos que se organizan en cinco grupos:

GRUPO 1	GRUPO 2	GRUPO 3	GRUPO 4	GRUPO 5
Proyectos de terminales	Hoteles en el aeropuerto	Mejoras del campo de aviación y pistas de rodaje (que no se requieren en los proyectos del Grupo 1)	Instalaciones de apoyo (que no son requieren en los proyectos del Grupo 1)	Acciones de tráfico aéreo para procedimientos de aproximaciones desplazadas en la pista de aterrizaje y despegue 10R/28L

Configuración actual de las terminales de O'Hare

Pr

Proyectos de terminales - Proyectos de la terminal global y las terminales satélites de O'Hare

Proyectos de terminales - Proyectos de la terminal global y las terminales satélites de O'Hare (GRUPO 1, TEMPORAL) T1 - Pasillo temporal/Corredor manga desde el vestibulo principal C T2 - Instalación temporal de calefacción y refrigeración Edificio temporal propuesto Pavimentación temporal propuesta ////// Demolición propuesta - Borde del pavimento - Edificios existentes

11

NOVEMBER 2022

Proyectos de terminales - Proyectos de la terminal 5

Mejoras en el campo de aviación y en las pistas de rodaje no requeridas en los proyectos de las terminales

Mejoras en el campo de aviación y en las pistas de rodaje no requeridas en los proyectos de las terminales

Instalaciones de apoyo que tienen servicios independientes de los proyectos de terminales

Instalaciones de apoyo que tienen servicios independientes de los proyectos de terminales

¿Cuáles son las medidas de tráfico aéreo propuestas?

- Las medidas de tráfico aéreo propuestas mantendrían las actuales aproximaciones con desplazamiento a la pista de aterrizaje y despegue 10R/28L.
- En la actualidad, estos procedimientos permiten el uso de aproximaciones simultáneas a tres pistas de aterrizaje y despegue y permiten las aproximaciones simultáneas aprobadas anteriormente a cuatro pistas en el futuro.
- La Reevaluación Escrita de la Declaración de Impacto Ambiental de la Modernización de O'Hare de 2015 aprobó estas aproximaciones con desplazamiento para su uso temporal.

Medidas de tráfico aéreo: flujo este con proyecto propuesto, aproximaciones con desplazamiento de 2,5 grados

Medidas de tráfico aéreo: ninguna medida en el flujo este

Para esta evaluación ambiental, ninguna medida significa que los procedimientos de aproximación a la pista de aterrizaje y despegue 10R/28L aprobados temporalmente en 2015 ya no existirían.

Medidas de tráfico aéreo: flujo oeste con proyecto propuesto, aproximaciones con desplazamiento de 2,5 grados

AL AV

Medidas de tráfico aéreo: ninguna medida en el flujo oeste

Para esta evaluación ambiental, ninguna medida significa que los procedimientos de aproximación a la pista de aterrizaje y despegue 10R/28L aprobados temporalmente en 2015 ya no existirían.

¿Evaluará la FAA alternativas a los proyectos propuestos?

- Sí, la FAA evaluará alternativas a los proyectos propuestos.
- Durante este proceso de determinación de los alcances, la FAA está solicitando a las partes interesadas ideas alternativas.
- La FAA también identificará alternativas que puedan:
 - Satisfacer las necesidades del aeropuerto
 - Evitar o reducir los impactos

¿Qué alternativas considerará la FAA para los edificios de las terminales y la infraestructura propuestos?

- Ninguna acción (sin los proyectos propuestos)
- Proyectos propuestos
- Variaciones de diseño de los proyectos propuestos
- Otros modos de transporte/gestión de la demanda
- Otras alternativas recibidas durante el estudio de alcance

¿Qué alternativas considerará la FAA para el campo de aviación propuesto y para las mejoras de las pistas de rodaje, instalaciones de apoyo y hoteles?

- Ninguna acción (sin los proyectos propuestos)
- Proyectos propuestos
- Otras alternativas recibidas durante el estudio de alcance

¿Qué alternativas considerará la FAA para para las acciones de tráfico aéreo propuestas?

- Ninguna acción (sin los proyectos propuestos)
- Proyectos propuestos
- Otras alternativas recibidas durante el estudio de alcance

¿Qué condiciones se evaluarán?

La evaluación ambiental estudiará las condiciones en tres períodos de tiempo:

- La condición existente (antes de que comiencen los proyectos propuestos)
- Un año intermedio
- El año posterior a la finalización del proyecto propuesto

¿Qué categorías de recursos ambientales se estudiarán?

- Calidad del aire
- Recursos biológicos
- Clima
- Recursos costeros
- Impactos acumulativos
- Materiales peligrosos, prevención de la contaminación y residuos sólidos
- Recursos históricos, arquitectónicos, arqueológicos y culturales
- Compromiso irreversible irrecuperable de los recursos
- Uso del suelo

- Emisiones de luz e impactos visuales
- Recursos naturales y suministro de energía
- Ruido y uso del suelo compatible con el ruido
- Transporte de superficie y estacionameinto
- Recursos hídricos Humedales, llanuras de inundación, aguas superficiales y aguas subterráneas
- Socioeconomía, justicia ambiental y salud ambiental de los niños

¿Cuál es el área de estudio principal para el ruido y los recursos culturales e históricos?

El área de estudio principal se desarrolló para abarcar el área potencial del contorno de ruido para evaluar el uso detallado de la tierra y los sitios sensibles al ruido dentro de esta área.

¿Cuál es el área de estudio secundaria para el ruido?

Dado que la EA también evalúa los cambios en el tráfico aéreo, se desarrolló un área de estudio secundaria para identificar un área más amplia para los impactos potenciales fuera del contorno del ruido.

¿Cuál es el área de estudio para el transporte terrestre?

¿Cuál es el área de estudio principal para la calidad del aire?

El área de estudio principal se desarrolló para evaluar las concentraciones de contaminantes del aire que resultan de las fuentes de emisión dentro y fuera de los límites del aeropuerto (por ejemplo, aeronaves, equipos de apoyo en tierra y vehículos en las carreteras circundantes).

¿Cuál es el área de estudio secudaria para la calidad del aire?

El área de estudio secundaria abarca los condados de DuPage y Cook, que se encuentran dentro de un área de no cumplimiento de la normativa sobre el ozono designada por la EPA.

¿Cómo puedo hacer llegar mis comentarios?

La FAA invitará al público y a otros organismos a comentar la versión preliminar de la evaluación ambiental y responderá a los comentarios en la evaluación ambiental definitiva. La FAA presentará la versión preliminar de la evaluación ambiental para que el público haga conocer sus comentarios en el verano de 2022. Esté atentos a las actualizaciones.

Si tiene alguna pregunta o inquietud inmediata, no dude en ponerse en contacto con la FAA directamente de una de estas maneras:

Re: Notice of Availability of the Draft Environmental Assessment and Draft General Conformity Determination for the Proposed Terminal Area Plan and Air Traffic Procedures at Chicago O'Hare International Airport

Dear Library Director:

The Federal Aviation Administration (FAA) has prepared a Draft Environmental Assessment and Draft General Conformity Determination for the Proposed Airport Terminal Area Plan and Air Traffic Procedures at Chicago O'Hare International Airport. The FAA is seeking public comment from Federal, state, and local government agencies and officials, as well members of the public regarding this Draft Environment Assessment (Draft EA).

The Draft Environmental Assessment's analysis will determine whether the proposed actions have the potential to significantly affect various environmental resources, such as noise, air quality, water resources and historic facilities.

The Draft EA is available for review online

(https://www.faa.gov/airports/great_lakes/TAPandATEA/). The FAA will issue a Notification of Availability of this document in local newspapers, which lists your library as a location for the public notice.

Please make these English and Spanish posters easily accessible in your facility so that interested parties may view them. Please do not display the posters until June 2, 2022. The public comment period is June 2 through July 18, 2022.

Sincerely,

by with at

Rebecca B. MacPherson Regional Administrator Great Lakes Region Enclosures
