You must send a petition for exemption 120 days before you need the exemption to take effect or 120 days before your current exemption expires, if you wish to extend it. Your petition for exemption must include all of the following:

- Your name and mailing address and, if you wish, other contact information such as a fax number, telephone number, or **email address**;
- The specific section or sections of Title 14 of the Code of Federal Regulations (14 CFR) from which you seek an exemption;
- The extent of relief you seek, and the reason you seek the relief;
- The reasons why granting your request would be in the public interest; this is, how it would benefit the public as a whole;
- The reasons why granting the exemption would not adversely affect safety, or how the exemption would provide a level of safety at least equal to that provided by the rule from which you seek the exemption;
- A summary we can publish in the Federal Register, stating:
 - The rule from which you seek the exemption; and
 - A brief description of the nature of the exemption you seek;
- Any additional information, views or arguments available to support your request; and
- If you want to exercise the privileges of your exemption outside the United States, the reason why you need to do so.

What your **Petition for Rulemaking** should contain

Your petition for rulemaking must include all of the following:

- Your name and mailing address and, if you wish, other contact information such as a fax number, telephone number, or **email address**.
- An explanation of your proposed action and its purpose.
- The language you propose for a new or amended rule, or the language you would remove from a current rule.
- An explanation of why your proposed action would be in the public interest.
- Information and arguments that support your proposed action, including relevant technical and scientific data available to you.
- Any specific facts or circumstances that support or demonstrate the need for the action you propose.

In the process of considering your petition, we may ask that you provide information or data available to you about the following:

- The cost and benefits of your proposed actions to society, as well as any targeted or affected groups or persons.
- The regulatory burden of your proposed action on small businesses, small organizations, small governmental jurisdictions, and Indian tribes.
- The recordkeeping and reporting burdens of your proposed action and whom the burdens would affect.
- The effect of your proposed action on the quality of the natural and social environments.

What your **Petition for Reconsideration** should contain

The FAA must receive your petition for reconsideration within 60 days after we issued the denial. Your petition for reconsideration must show the following:

- That you have a significant additional fact and why you did not present it in your original petition;
- That we made an important factual error in our denial of your original petition; or
- That we did not correctly interpret a law, regulation, or precedent.
