

Preparatory measures for Sochi airport:

- Reconstruction of aerodrome and all the infrastructure objects in full.
- Implementation of new ATC system and other equipment.
- Implementation of non-conflict SIDs/STARs.
- Creation of “Sochi-Delivery” ATC position (ATC clearance procedure).
- Implementation of strictly flight planning procedures (for in respect to valid slots).

Outcomes:

- $ATS\ Capacity \geq Air\ Traffic\ Density$.
- $Airport\ Capacity \geq Runway\ Operations$.
- Capacity has been increased by 7.
- No holding patterns.

24.02.2014
(575 runway operations)

**Total number of runway operations on 24/02/2014 - 575
(Dep – 288 & Arr – 287)**
