

Air Traffic Control System Command Center

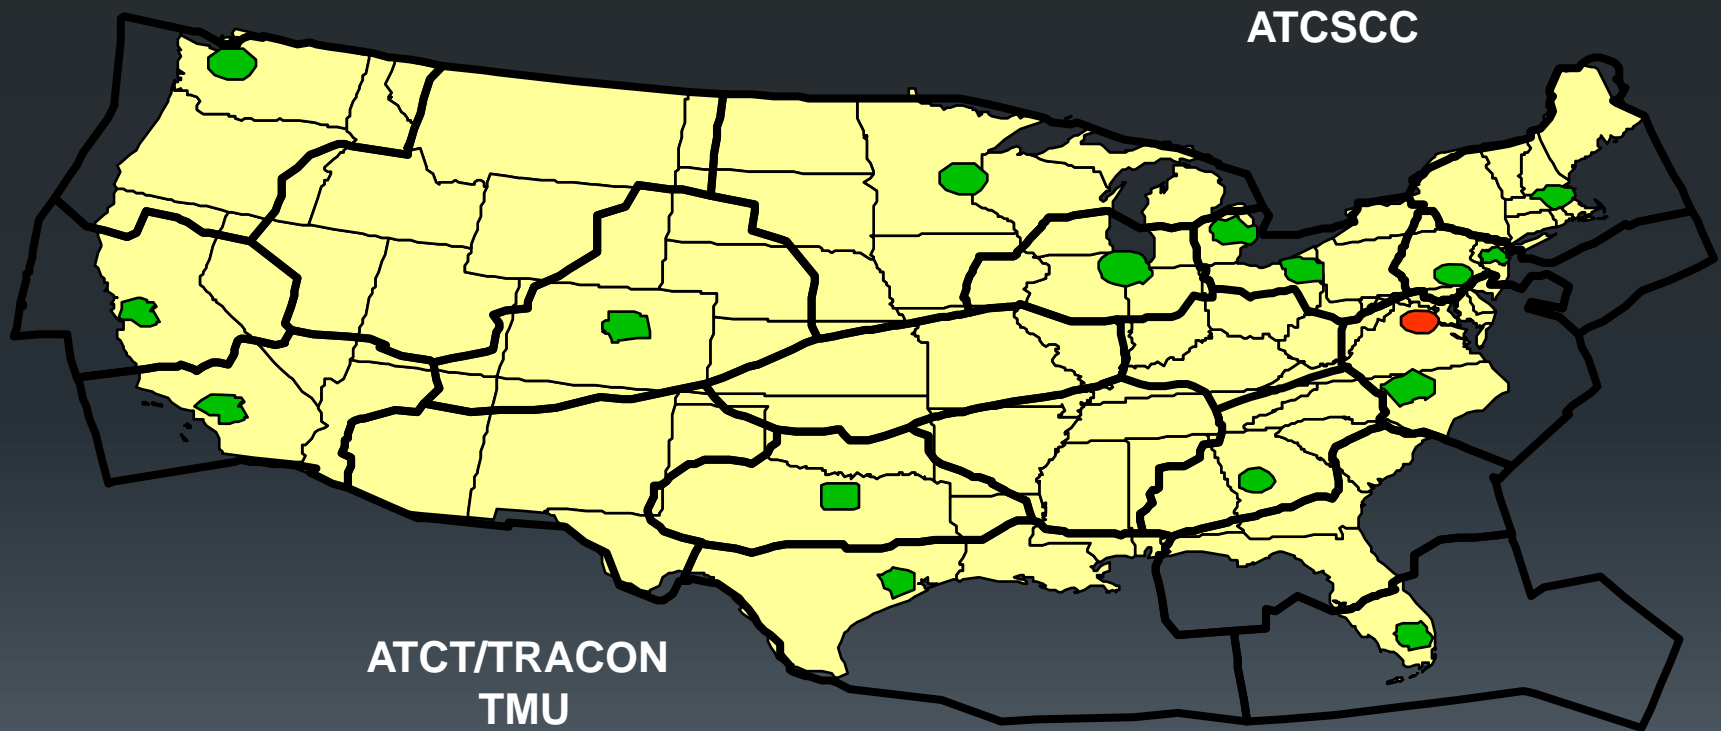

Air Traffic Control System Command Center

The Traffic Management System mission is to balance air traffic demand with system capacity to ensure the maximum efficient utilization of the National Airspace System (NAS). A safe, orderly, and expeditious flow of traffic while minimizing delays, is fostered through continued analysis, coordination, and dynamic utilization of TM initiatives and programs.

Air Traffic Management Structure

Traffic Management Units (TMUs) – ATCTS TRACON & ARTCC

ATCSCC Operational Floor

ATCSCC Operating Positions

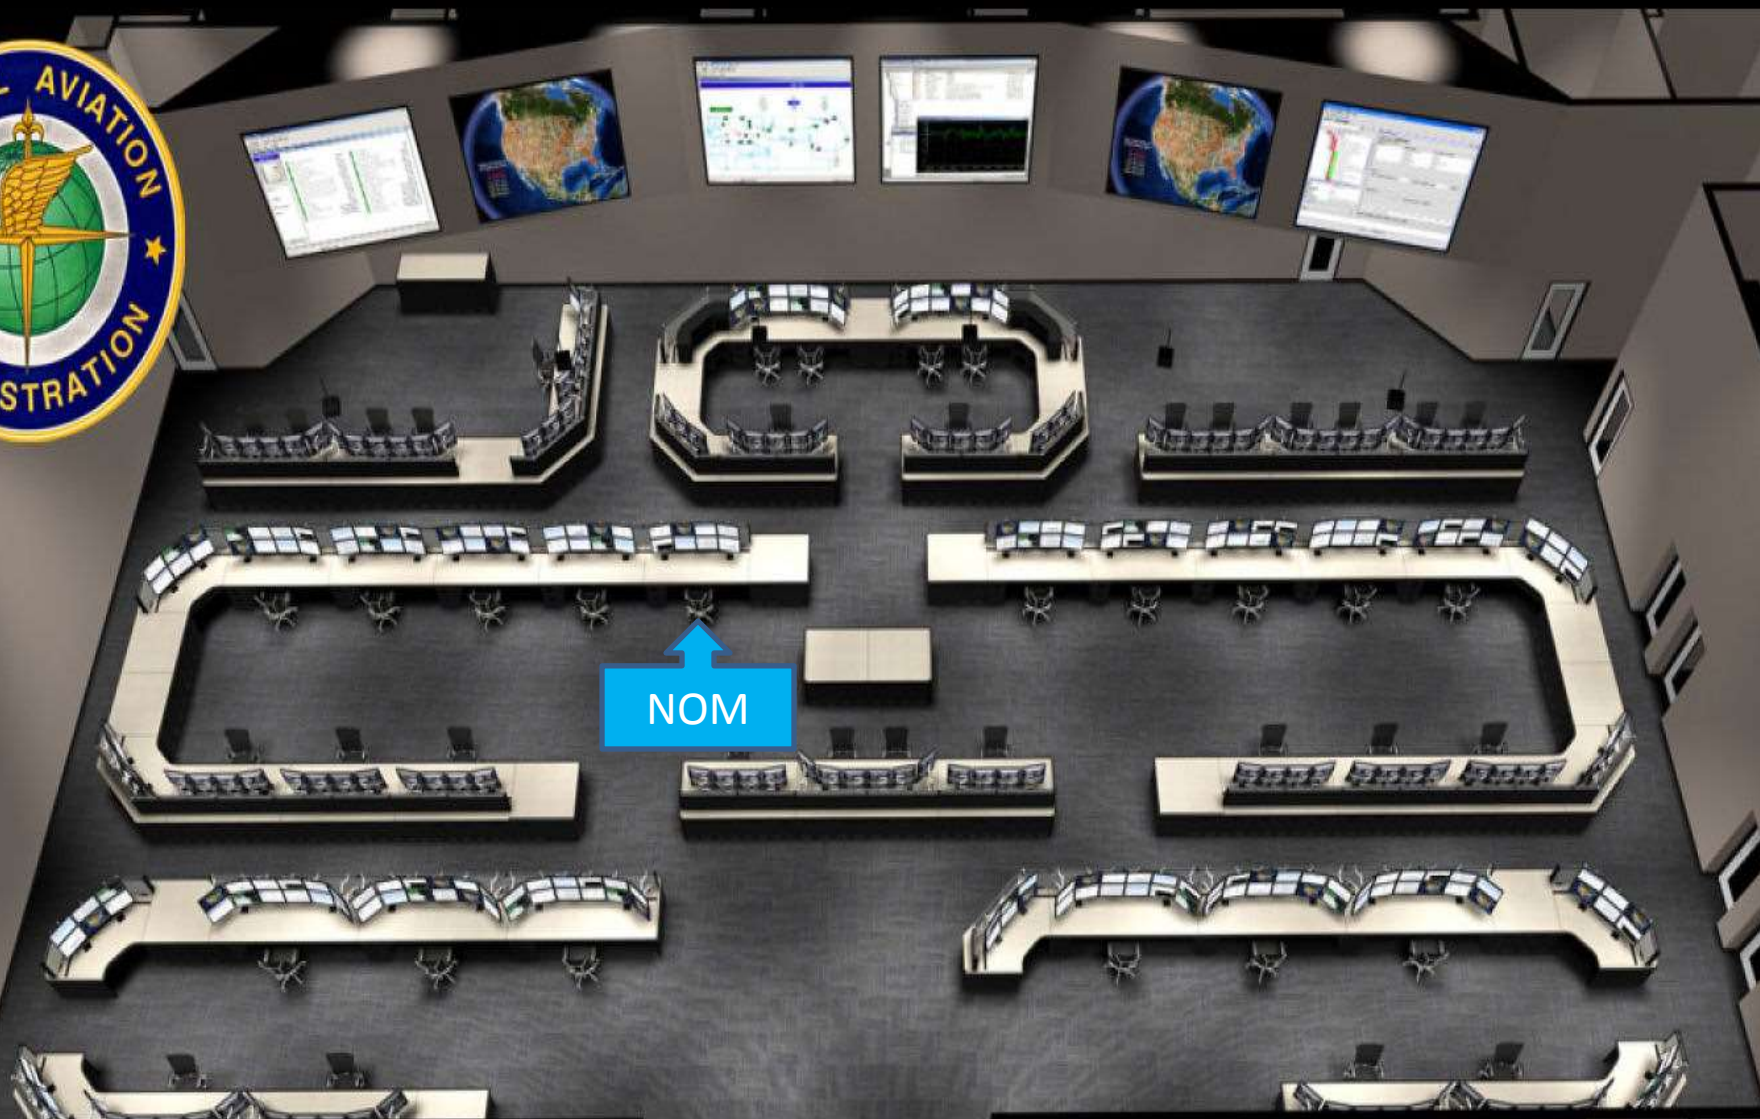

Image from Constant Technologies

National Operational Manager

- *Direct control room operations*
 - *Ensure adequate staffing for current/subsequent shifts – Position Assignments*
 - *Oversee implementation of Operations Plan*
 - *Monitor Operational Planning Telcon*
 - *Conduct Standup briefing twice daily*

ATCSCC Operating Positions

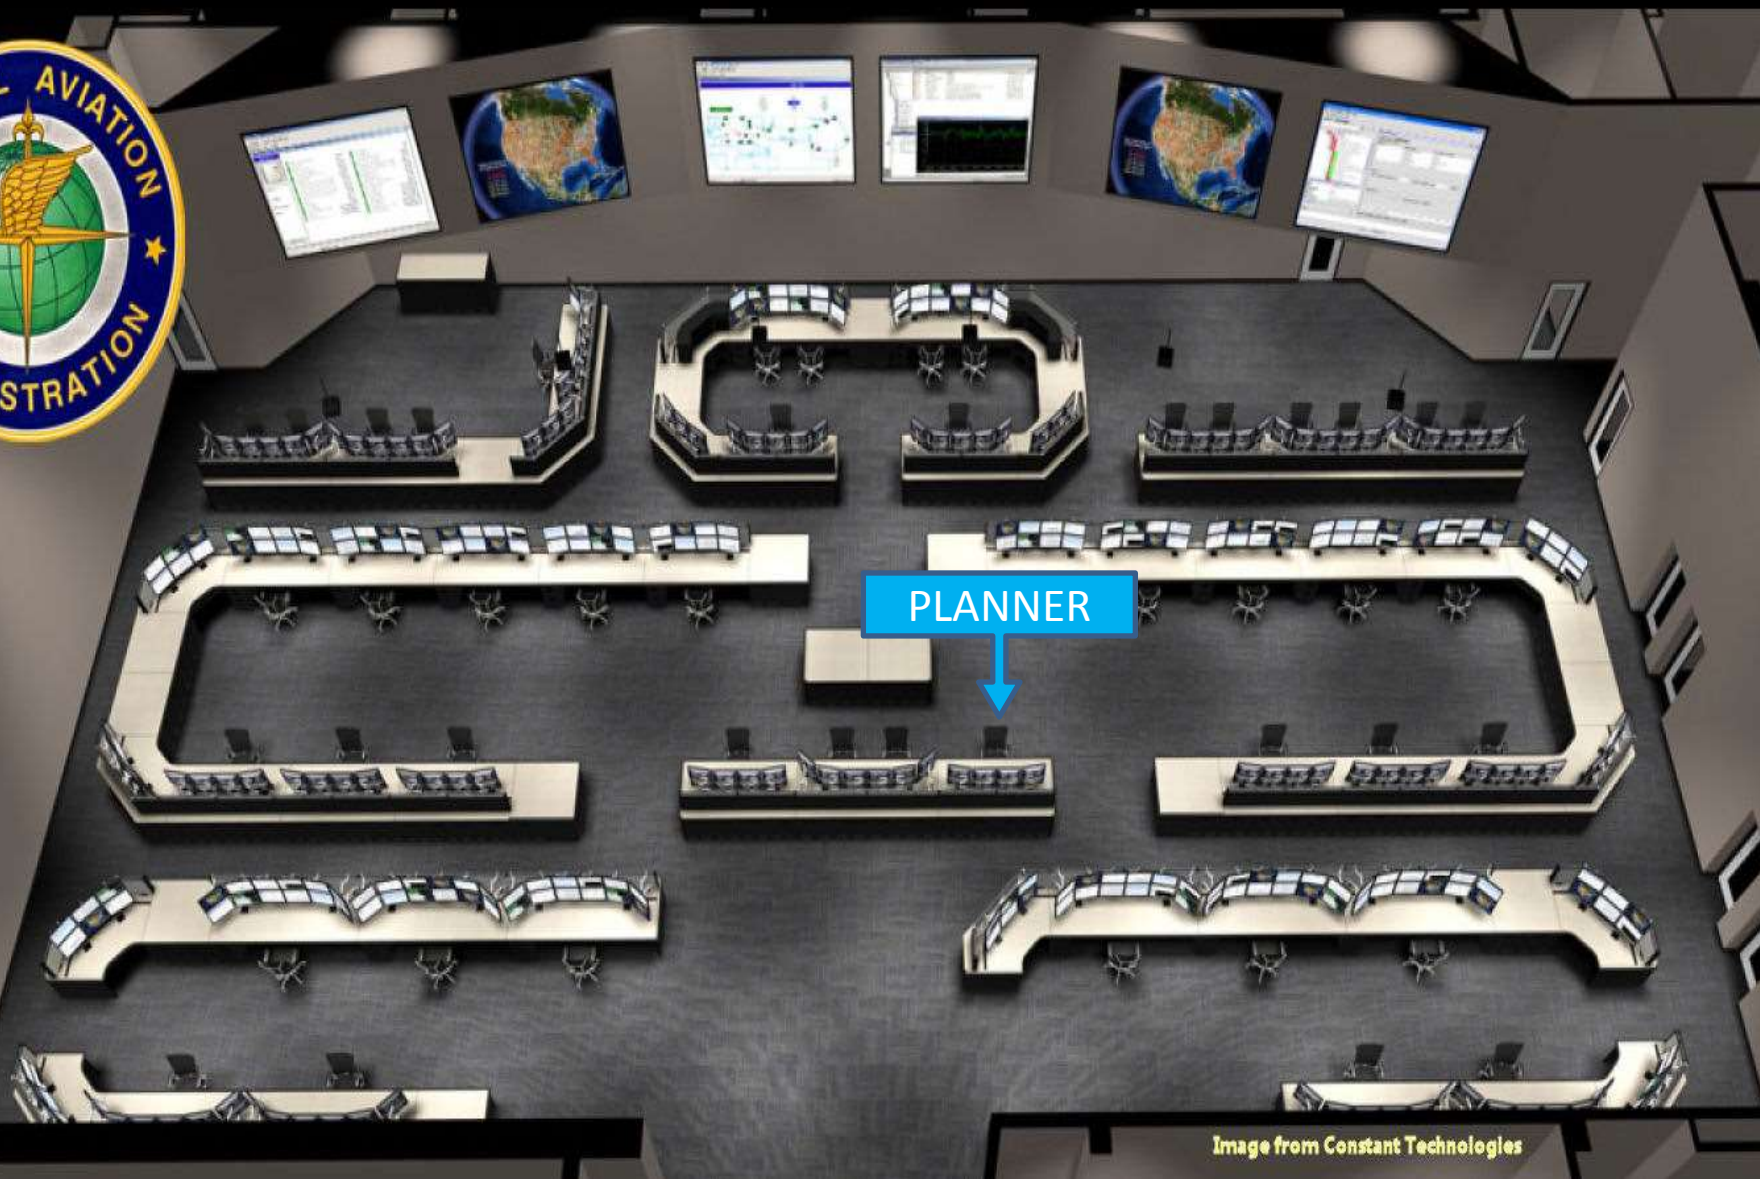

Image from Constant Technologies

Planner

Strategic Pre-Tactical Tactical

- *Team Lead for developing Traffic Management Strategies*
- *Conducts/Facilitates the OPT with Field Facilities and NAS Customers*
- *Brief VIP information*
- *Provide brief summary of OPT to FAA Field Facilities and Customers*
- *Post Operational Plan on ATCSCC Web Page*

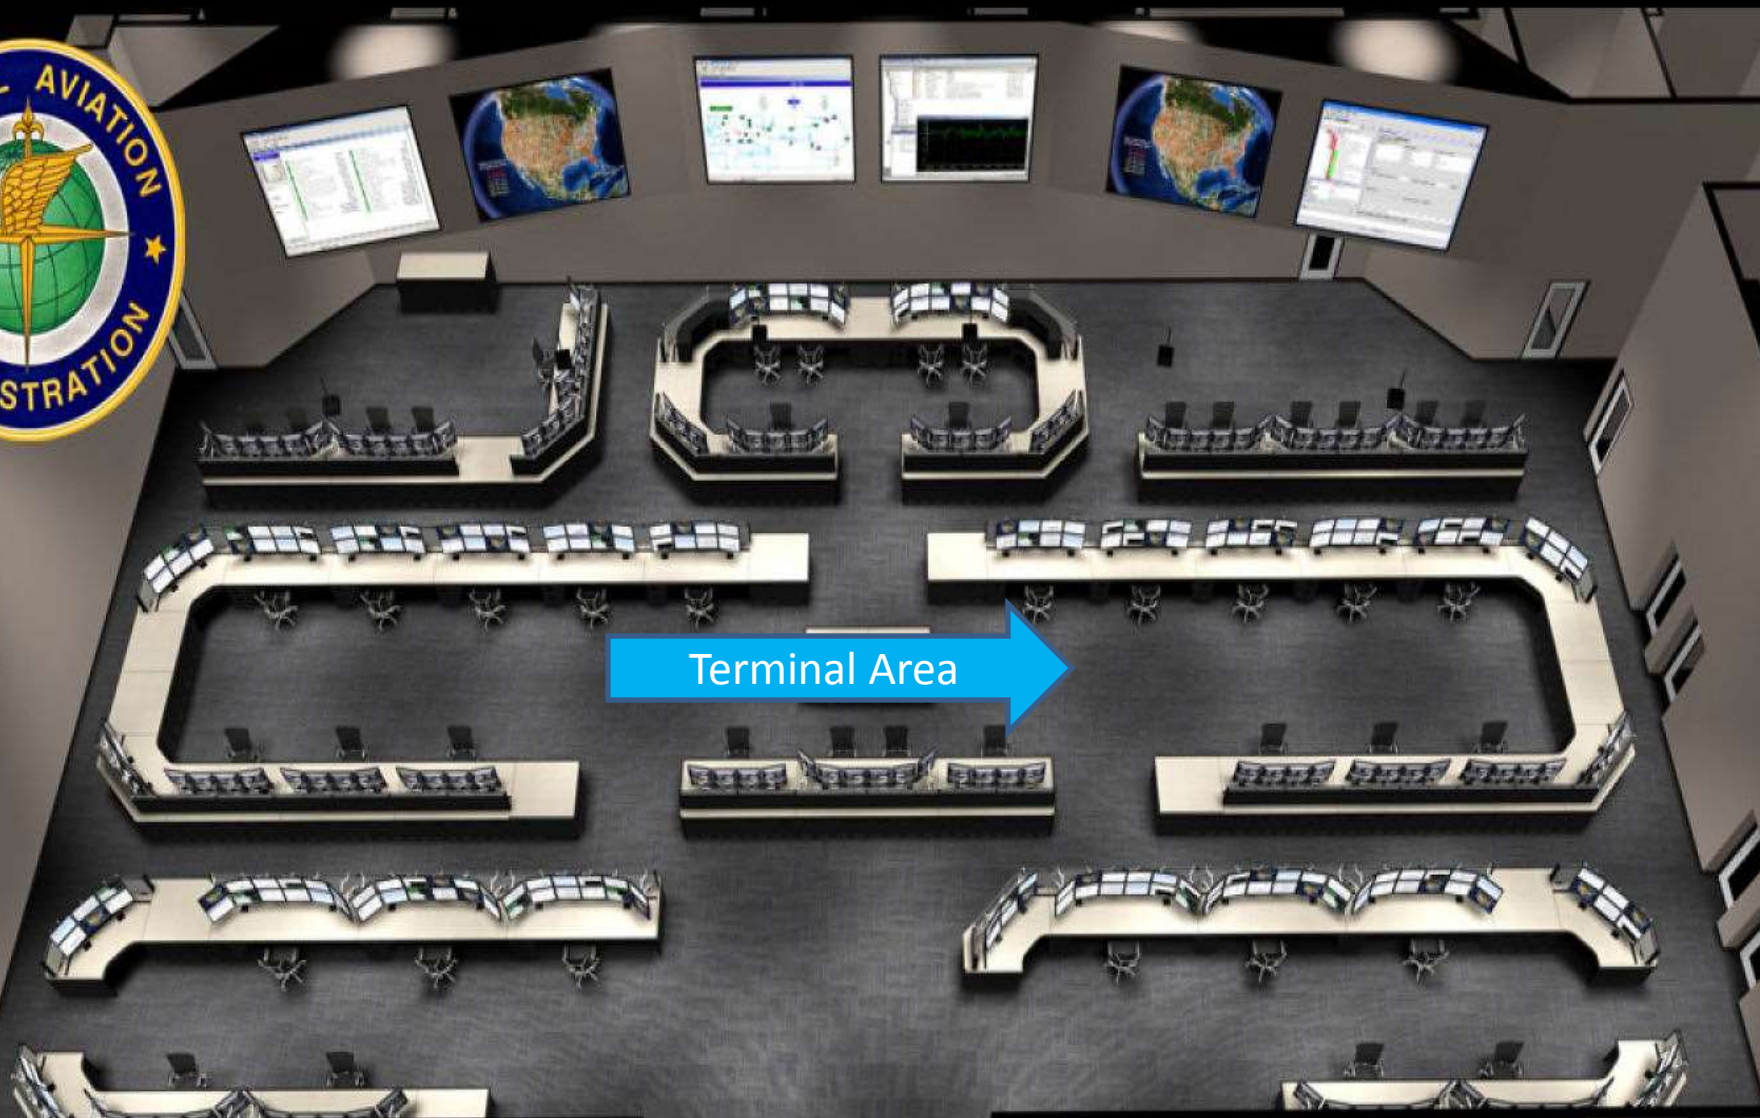

Collaborative Planning

- *Develop, communicate and coordinate the operational plan*
- *Planning Telcon every two hours*
 - *Impacting Weather*
 - *Routes in place*
 - *Enroute & Terminal constraints*
 - *Customer concerns*

ATCSCC Operating Positions

Terminal Area

Image from Constant Technologies

Terminal Area

Pre-Tactical and Tactical

- *Controls traffic flows through the National Airspace System*
- *Facilitate and Initiate Ground Delay Programs/Ground Stops*
- *Coordinate with Terminal NTMO and Planner*
- *Conference field facilities to discuss constraints*
 - *Demand/Capacity*
 - *Weather*
 - *Equipment Outages*
 - *Runway Configurations*
 - *Unusual circumstances*

ATCSCC Operating Positions

Severe Weather Area

Image from Constant Technologies

Severe Weather Area

Pre-Tactical and Tactical

- *Communicate with Field Facilities and Customers about Enroute Constraints*
- *Facilitate and Initiate AFP, FEA, FCA's and CTOP*
- *Develop escape routes and pathfinder strategies During Inclement weather*
- *Coordinate with Severe, Terminal NTMO's and Planner*

ATCSCC Operating Positions

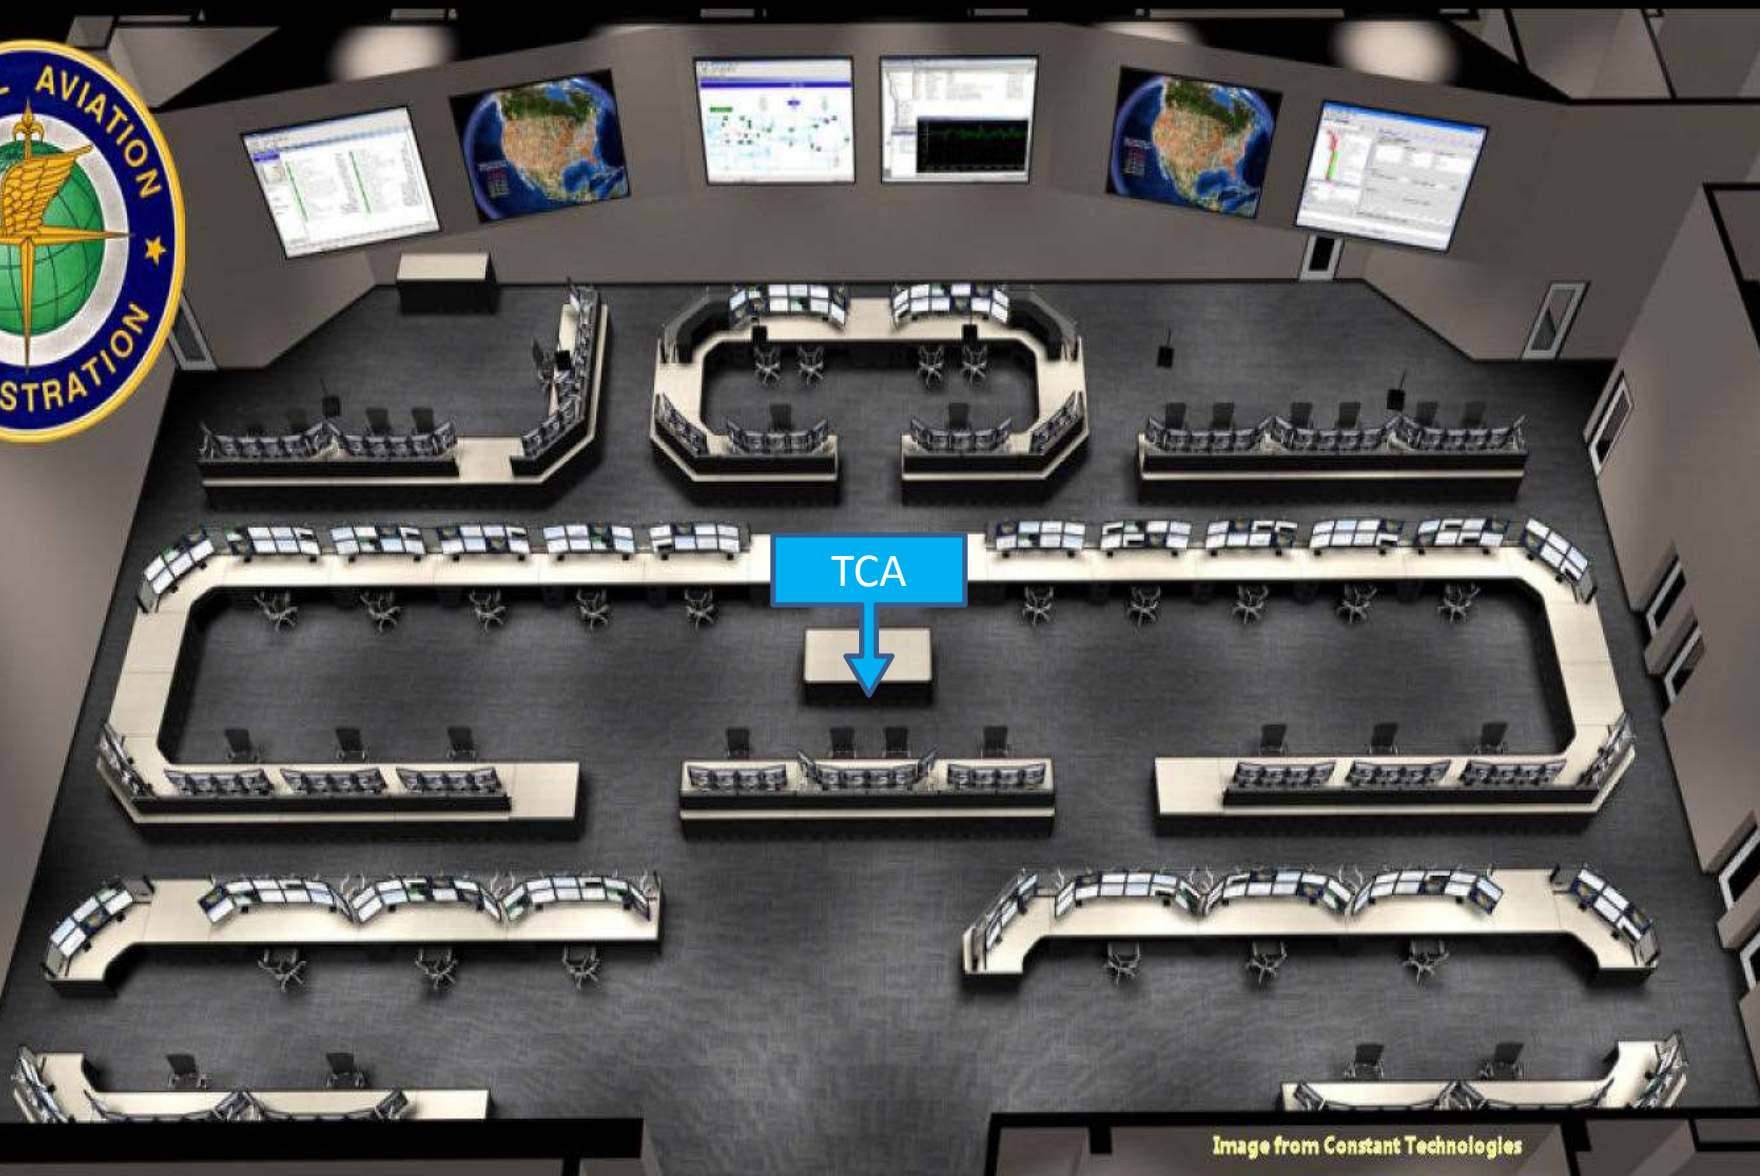

Image from Constant Technologies

Tactical Customer Advocate (TCA)

- *CDM Customer liaison*
- *Manages and Facilitates online communication with CDM Customers*
- *Evaluates and coordinates customer requests*
- *Activates/deactivates diversion recovery page*
- *Focal for tarmac delay issues*

ATCSCC Operating Positions

IO Position

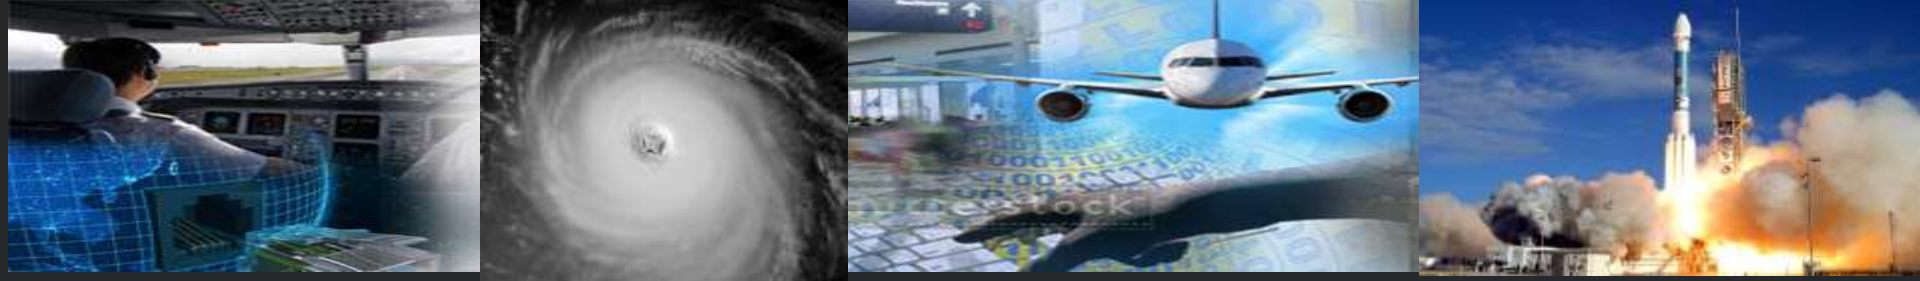

International Operations Position

- *Coordinate with International ANSP*
 - *Volcanic Activities*
 - *AFTN Outages*
- *Host International Telcons*
 - *Route Changes*
- *Conduct Hurricane Telcons*
- *Coordinate with Terminal/Severe Weather NTMO's, TCA, Field Facilities and Customers*
- *Contact # 1- 540-359-3158*

Event Management Center
& Space Operations

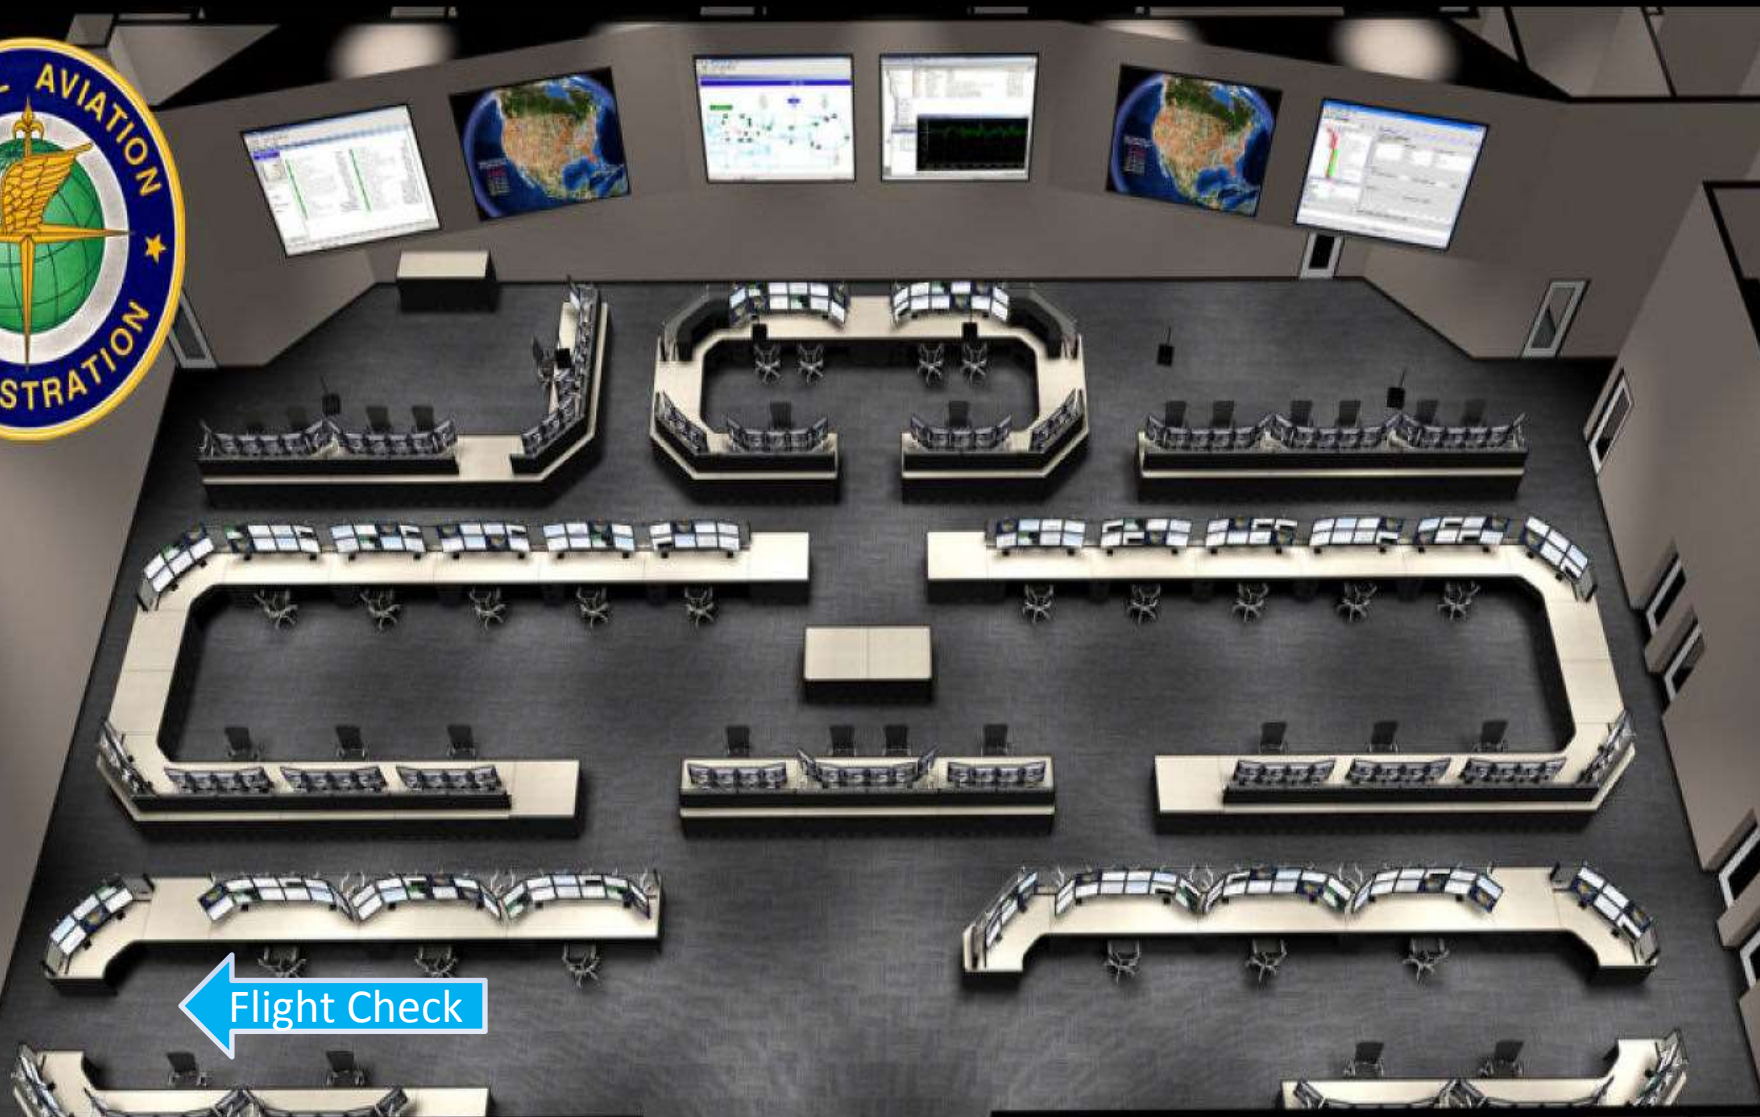

Event Management Center/Space Operations

Responsive, flexible and capable to meet the needs of the aviation industry. Working with organizations public, private and military prioritizing fights and support, helping to establishing flight restrictions to protect people in the air and on the ground. Facilitating life guard and humanitarian flights.

- *Natural Disasters (major hurricane, earthquake)*
- *Commercial Space Launch and Recovery*
- *Verified Terrorist Threat or other Major Impact to the NAS*
- *Airlift Assistance, Disaster Relief*

ATCSCC Operating Positions

Flight Check

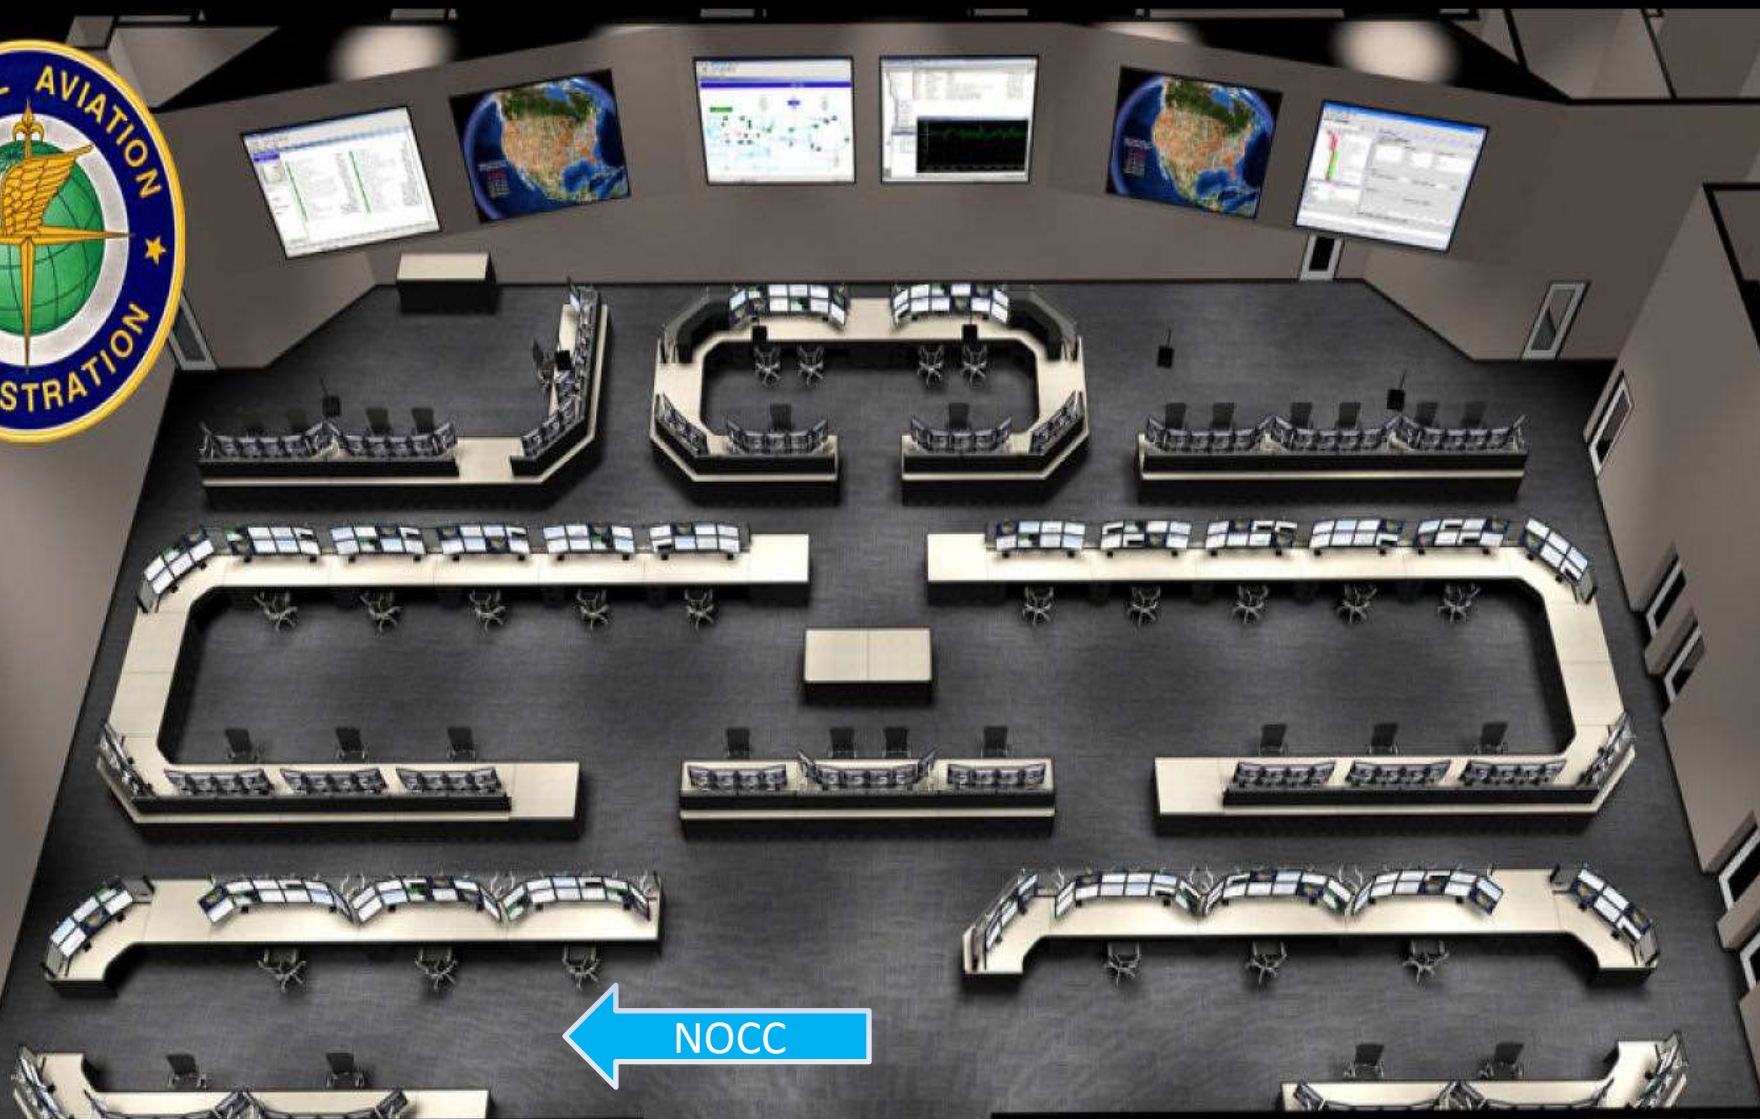

Image from Constant Technologies

Flight Inspection Liaison Office

- *Facilitates restoration and maintenance of critical services to the NAS*
- *National focal point for coordinating and scheduling “Flight Check” aircraft*

ATCSCC Operating Positions

NOCC

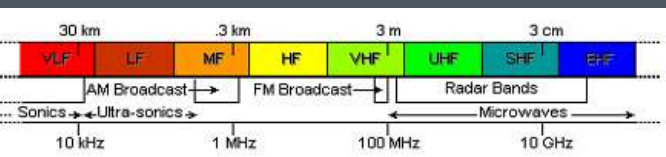

Image from Constant Technologies

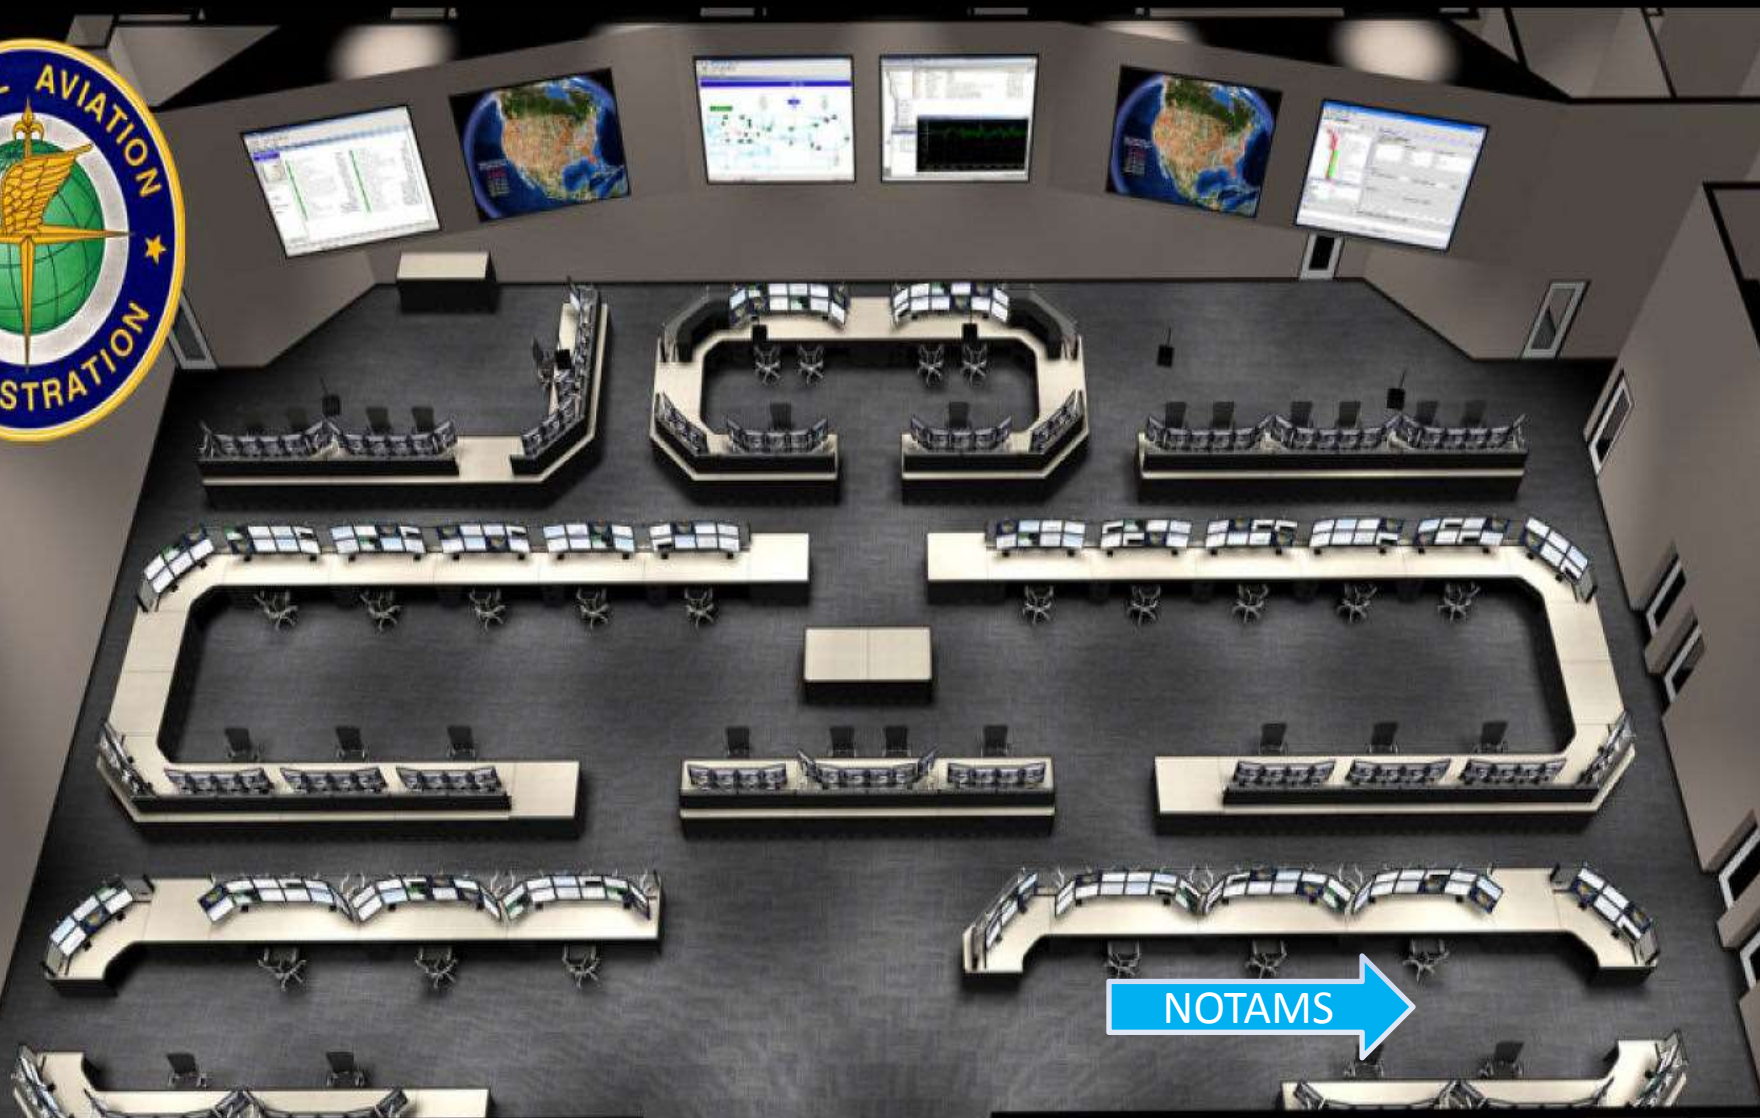

National Operations Control Center (NOCC)

- *Monitors operational status of NAS facilities and services nationwide*
- *Receives, processes and disseminates data concerning facility/service outages or interruption*
- *Responsible for system components (radar, communications, navaids)*

ATCSCC Operating Positions

NOTAMS

Image from Constant Technologies

US NOTAM Office

- *Joint FAA, DOD, International Office*
- *Responsible for collecting, maintaining, distributing NOTAMS*
- *Disseminates pertinent information regarding the NAS*

Other Resident Organizations

- *Airlines for America (A4A)*
- *National Business Aviation Association (NBAA)*
- *International Air Transport Association (IATA)*
- *Air Traffic Services Cell (Military)*
