

The Federal Aviation Administration (FAA) is hosting the "Northern California Airspace Virtual Public Information Workshop," conducted via Zoom, on Tuesday, July 20, 2021, from 6:00-8:00 p.m. Pacific Time, and again on Wednesday, July 21, 2021, from 1:00-3:00 p.m. Pacific Time.

Topics and Panelists

The FAA is taking this opportunity to discuss the operations, challenges, and constraints in and around the airspace in the Northern California region. Given the complexity of this airspace, it is essential to discuss these issues holistically.

Panelists will include representatives from the FAA, San Francisco International Airport, Oakland International Airport, and Mineta San Jose International Airport, airline and cargo carriers, and representatives from the Airline Pilots Association.

Several high-profile items will be covered at this workshop, such as the NIITE/HUSSH, BRIXX, and SERFR flight procedures that were part of the Select Committee Report.

Questions and Answers

A live Question & Answer session will be conducted using the Zoom Q&A feature. In addition, the FAA will respond to questions relevant to the workshop topics.

This virtual public information workshop is not part of any environmental review process conducted pursuant to the National Environmental Policy Act; it is informational only.

Sign Up to Attend

In order to attend the virtual meeting, you must register in advance. Please copy/paste the Workshop Home page website address: https://www.faa.gov/air_traffic/community_involvement/norcal_ew/ into your browser. From the Home page, please click on the links provided to complete the registration form.
