

## Community Involvement: Sacramento International Airport (KSMF), Sacramento, California

Community involvement is the process of engaging in dialogue and collaboration with communities affected by FAA actions. Formal community involvement or public meetings/hearings may be required for the proposed project. Attach notice to and response from those contacted in the early stages of the projects as required per JO 7400.2 Paragraph 32-4-3, FAA Community Involvement Manual. (See also JO 7400.2 Appendices 10 and 11)

1. Is there a need for an Informational Handout to be sent to the airport manager/sponsor?  
(An Informational Handout is generally a one- or two-page description of the change in plain language.)

☒ Yes   ☐ No

If “No,” provide justification?

2. Is there a need for community engagement in addition to the Information Handout that will be sent to the airport manager/sponsor?

☐ Yes   ☒ No   ☐ N/A

If “Yes,” provide a description of what additional efforts will be completed and associated rationale?

If “No,” provide justification?

The procedures are not anticipated to increase traffic utilizing KSMF. The change purpose is to enhance safety. No altitudes are lowered. Minimum altitudes on the new portion of the procedures from DOSCO waypoint (WP) east are all above 8,000 feet above ground level (AGL) and historic aircraft tracks from DOSCO WP east are above 18,000 feet AGL and are anticipated to remain consistent..

3. Have individuals and/or groups who could have an interest in an FAA activity due to their location or by their function in the community been notified, consulted, or otherwise informed of this proposed action?

☐ Yes   ☐ No   ☒ Not Known

Are the airport proprietor and/or users providing general support for the proposed action?

☒ Yes   ☐ No   ☐ Not Known

Are local citizens and community leaders aware of the proposed action?

☐ Yes   ☐ No   ☒ Not Known

Are any ☐ opposed to or ☐ supporting it? ☒ Not Known

Identify the parties and indicate whether they are in opposition or in support.

If they are opposed, what is the basis of their opposition?

4. Has the FAA received one or more comments objecting to the proposed project on environmental grounds from local citizens or elected officials?

☐ Yes   ☒ No

If “Yes,” state the nature of the comment and how the FAA was notified (e.g. resolution, Congressional, Public meeting/workshop, etc.).
