

Federal Aviation Administration

Memorandum

Date: December 17, 2021
To: FAA Office of Airports
From: Holly Dixon, Acting Manager, Airport Improvement Program (AIP) Branch, APP-520
Prepared by: Terri A.R. Kett, terri.kett@faa.gov *Holly L Dixon, P.E.*
Subject: **ACTION:** FY 2022 EAS/EDA Determinations

Purpose

The purpose of this memo is to provide the fiscal year (FY) 2022 determination under Title 49 U.S.C. § 47109(f) Special Rule for Economically Distressed Communities (herein referred to as the “Special Rule”), which provides an exception to the 90 percent federal share for Airport Improvement Program (AIP) grants at smaller airports (i.e. other than large and medium hub) that are receiving Essential Air Service (EAS) and are located in Economically Distressed Areas (EDA).

FAA Airports Regional Offices and Airports District Offices are encouraged to distribute this memo to the airport and consultant community. The listing of the FY 2022 EAS/EDA determinations will be available on the FAA Office of Airports website at: https://www.faa.gov/airports/aip/eas_eda/.

Determinations

The FAA makes an annual determination on which airports qualify for a 95 percent federal share for AIP grants under the Special Rule. For an airport to be considered for the Special Rule, the community where the airport is located must be included in the Department of Transportation’s (DOT) EAS listing and meet certain economic criteria determined from available federal data.

The DOT administers the EAS program and publishes the list of subsidized EAS communities. For more information about the EAS program, visit the DOT website: <https://www.transportation.gov/policy/aviation-policy/small-community-rural-air-service/essential-air-service>

Based on the Special Rule, the FAA makes EDA determinations for each community using unemployment data from the Bureau of Labor Statistics and per capita income data from the Bureau of Economic Analysis. The Special Rule applies when an area meets one or more of the following criteria:

1. The area has a per capita income of 80% or less of the national average.
2. The area has an unemployment rate, for the most recent 24-month period for which data is available, at least 1% percent greater than the national average.

3. The area has a special need arising from actual or threatened severe unemployment or economic adjustment problem resulting from severe short-term or long-term changes in economic conditions (as determined by the Secretary of Commerce).

Once the FAA determines an airport qualifies for the increased federal share, the airport maintains the status for the entire fiscal year, regardless of any changes in EAS status or EDA data.

Qualifying Airports

In FY 2021, 95 airports qualified under the Special Rule. The FY 2022 determination of airports meeting the Special Rule identified 100 qualifying airports, including 17 new EAS/EDA locations (see Table 1). All EAS/EDA airports will be eligible to receive a 95 percent federal share for AIP grants issued in FY 2022.

Table 2 identifies 12 airports that were eligible in FY 2021, but do not qualify in FY 2022.

Table 1: EAS Locations determined as EDAs - Of the NPIAS airports designated by DOT as EAS communities, 100 are EDA locations.

* indicates new EDA locations in FY 2022
