<b>EXECUTIVE SUMMARY .....</b>	<b>VI</b>
Development Estimates .....	vii
Estimates by Airport Type .....	viii
Estimates by Type of Development .....	x
Status of the Industry .....	xii
<b>CHAPTER 1: SYSTEM COMPOSITION.....</b>	<b>1</b>
Overview.....	1
U.S. Department of Transportation.....	2
Federal Aviation Administration .....	2
FAA’s Office of the Associate Administrator for Airports .....	3
Guiding Principles for the National Airport System.....	3
Airports Included in The NPIAS .....	5
Commercial Service Airports .....	5
Large Hubs.....	6
Medium Hubs.....	7
Small Hubs.....	7
Nonhub Primary.....	7
Nonprimary Commercial Service .....	8
Reliever Airports.....	8
General Aviation Airports.....	9
New Airports.....	9
Airports Not Included in The NPIAS .....	10
State System Plans Include More Airports .....	10
Evolution of the National Airport System .....	10
Use of Airport System .....	12
<b>CHAPTER 2: SYSTEM PERFORMANCE.....</b>	<b>17</b>
Overview.....	17
Major Initiatives.....	17
NextGen .....	17
Airports Geographic Information Systems (GIS).....	18
Airport Cooperative Research Program.....	18
Factors Indicating System Performance .....	19
Capacity .....	19
Runway and Taxiway Improvements .....	20
Evaluation Measures for 35 OEP Airports .....	21
Congestion and Delay .....	26
Air Carrier On-Time Performance.....	27
Delay Indicators .....	27
Airport Capacity – A National Look .....	29
Alternative Capacity Enhancement Methods.....	31

Safety.....	35
Call to Action.....	35
Preventing Runway Incursions.....	36
Airport Design Standards Including Runway Safety Areas (RSA).....	38
Airport Certification.....	39
Environmental.....	42
Air Quality.....	43
Airport Sustainability Efforts.....	43
Environmental Streamlining.....	44
Environmental Research.....	44
Environmental Management Systems at Airports.....	45
Livability.....	45
Water Quality.....	45
Noise.....	46
Runway Pavement Condition.....	49
Pavement Research.....	50
Surface Accessibility.....	51
Financial Performance.....	53
<b>CHAPTER 3: ACTIVITY FORECASTS.....</b>	<b>59</b>
Overview.....	59
Activity Forecasts.....	59
Commercial Aviation.....	59
Cargo.....	61
General Aviation.....	62
Implications of Forecasts.....	63
Other Factors.....	64
New Large Aircraft.....	65
Fractional Ownership.....	66
Very Light Jets or Microjets.....	66
Light-Sport Aircraft.....	67
Unmanned Aircraft Systems.....	67
Conversion of Military Surplus Airfields.....	68
Military/Civilian Joint Use.....	70
Other Innovations.....	72
Commercial Spaceports.....	72
Airport Privatization.....	73
<b>CHAPTER 4: DEVELOPMENT REQUIREMENTS.....</b>	<b>75</b>
Overview.....	75
Process.....	75
Development Costs.....	76
Development Categories.....	79
Safety and Security.....	79
Reconstruction.....	80
Standards.....	80

Environment.....	80
Terminal Building.....	81
Surface Access.....	81
Airfield Capacity.....	81
New Airports.....	82
Other... ..	82
Anticipated Sources of Funding.....	82
Additional Costs Not Included in the NPIAS.....	83

# List of Figures and Tables

---

## FIGURES

Figure 1: 5-Year Development Estimates from Published NPIAS Reports to Congress .....	viii
Figure 2: NPIAS Cost by Airport Type .....	ix
Figure 3: Change in Development Costs from 2009-2013 NPIAS Report by Airport Type.....	ix
Figure 4: NPIAS Cost by Type of Development .....	x
Figure 5: Change in Development Costs from 2009-2013 by Category .....	xi
Figure 6: Number of Existing and Proposed Airports by Ownership and Use (as of February 2010).....	1
Figure 7: Historical - Existing and Proposed NPIAS Airports .....	11
Figure 8: U.S. Commercial Air Carriers Total Scheduled U.S. Passenger Traffic .....	12
Figure 9: Total Combined Aircraft Operations at Airports with FAA and Contract Traffic Control Service .....	13
Figure 10: Percentage of Commuter and Air Carrier Operations at 35 OEP Airports in 2009 (Ranked by Highest Share of Commuter/Air Taxi Operations) .....	24
Figure 11: Connecting Passengers as Percentage of Total Airport Passengers .....	25
Figure 12: Airports with 10 Percent or More International Enplanements .....	26
Figure 13: Average Delay per Operations vs. Total Annual Operations at OEP Airports .....	28
Figure 14: Delay per Operation Groupings: OEP 35 Airports .....	29
Figure 15: Accident Rates.....	35
Figure 16: Percent Change in Number of People Exposed to Significant Noise (65 dB DNL) from Base Year 2005 .....	47
Figure 17: Population Expected to Benefit from Noise Funding FY 2003 through 2014.....	48
Figure 18: Runway Pavement Condition (2009) .....	49
Figure 19: Distribution of Airport Revenues .....	55
Figure 20: Revenue and Expenses .....	56
Figure 21: Net Income by Year and Hub Type.....	56
Figure 22: Value of U.S. International Merchandise Exported and Imported by Mode 2008 .....	61
Figure 23: 5-Year Development Estimates from Published NPIAS Reports to Congress .....	77
Figure 24: Comparison of 5-Year Development Costs by Airport Type Years 2001, 2005, 2007, 2009, and 2011 .....	78
Figure 25: Comparison of 5-Year Development Costs by Category Years 2001, 2005, 2007, 2009, and 2011 .....	79

## TABLES

Table 1: Airport Statistics .....	9
Table 2: General Aviation and Part 135 Activity Survey Actual Hours Flown by Use Calendar Year 2008.....	14
Table 3: New Runways and Airfield Reconfigurations Opened Since 1999 at OEP Airports.....	21
Table 4: Selected Demand and Capacity Indicators for the 35 OEP Airports.....	23
Table 5: Sample Toolbox Solutions.....	30
Table 6: Historical Runway Incursions.....	36
Table 7: Population within 20 Miles of a NPIAS Airport .....	51
Table 8: Airports Served by Rail* .....	52
Table 9: Airport Operating and Financial Summary 2008 (\$ millions).....	54
Table 10: U.S. Aviation Activity Forecasts .....	60
Table 11: Fractional Shares and Number of Aircraft in Use .....	66
Table 12: Military Airfields Transferred to Civil Sponsors.....	69
Table 13: Military Installations with Civilian Use .....	70
Table 14: Civilian Airports with Military Installations .....	71
Table 15: 2011 – 2015 NPIAS Cost by Airport and Development Category (2010 \$ millions).....	77
Table 16: 2009 – 2013 NPIAS Cost by Airport and Development Category (2008 \$ millions).....	78
