

Designee Management System (DMS) Annual Request to Extend Expiration Date

Designees are required to request an extension of their expiration date every 12 months. DMS will send the designee a notification in the DMS message center and place an action item in their Action Required Items list. This job aid provides instructions on the process.

NOTE: It is the designee's responsibility to complete this task prior to the expiration date. If the task is not completed DMS will place the designee in "Expired" status which prevents any work activity or pre-approval request submittals. The FAA Managing Office, the Managing Specialist, and the FAA Helpdesk have no access to this process and cannot assist with completing the task.

Annual Request to Extend Expiration Date

When a designee becomes eligible to request extension of the expiration date, DMS will send a message in the Message Center and will place an action item in the Action Required Items list. Click on the action tab as shown below to begin the process.
