

Airplanes models/series on this list: Do NOT train ice contaminated tail stall recovery. Train AFM Icing Limitations and Procedures, emphasize if maximum flap deflection in icing is reduced.

Note - This list is model and series specific. TCDS marked with an asterisk have some model/series that are intentionally not included in this list.

Note - If a TCDS has no asterisk, all models and series on that TCDS are included in this list.

Note - All models originally certified after 1994 should be on this list. Notify the FAA Aircraft Certification Division at paul.pellicano@faa.gov if you believe an airplane model is missing from this list.
