

## Emergency Procedures:

Procedures are in place for lost communications and lost link issues, covering the changeover to backup communications equipment and what to do when / if unable to regain communications.

Additional emergency procedures are documented for traffic avoidance.

There is a full complement of equipment at Blossom Point, (2) 250 gallon capacity water trucks, (20) 10MB 3H, 17lb fire extinguishers, (4) 150 pound fire extinguishers, backhoes and bulldozers. There are 2 certified wild land fire fighters with CPR capabilities. The entire range has fire breaks to protect the forested canopy from the open ranges.

The Kestrel-T Ground Control Station is equipped with fire extinguishers.
