

Emergency Procedures:

All in flight emergencies will be handled in accordance with the Shadow 200 Operators / Crewmembers Checklist and Redstone Army Airfield Local Flying Rules. In the event of an emergency, both Redstone ATC and Flight Operation will be contacted immediately. UAS will remain within the restricted area until the emergency is terminated by either the UAS crew or ATC. Activation of crash and rescue personnel will be determined by ATC on a case by case basis. In the event of an on-airfield emergency involving UAS or manned aircraft, UAS launch and recovery will not be authorized until the emergency is terminated and operations are approved by ATC.
