

Departure Location: Cochise College Airport, Douglas, Arizona.

Arrival Location: Cochise College Airport, Douglas, Arizona.

Pre/Post flight operations: Cochise College Airport, Douglas, Arizona.

Route of Flight. UA will depart Cochise College Airport located in Douglas, Arizona. If departing the local traffic pattern, UA will take-off utilizing the duty runway depending upon wind direction and runway in use.

After take-off: The UA will climb straight ahead until reaching crosswind altitude and KIAS and enter the COA NAS. After entering COA, the UA will be permitted to operate within COA as appropriate, utilizing altitudes up to 17,999 feet MSL and Chase aircraft establishing positive visual contact with the UA.

Recovery/termination of flight will utilize the same procedure, only reversed.

NOTE: See lost link procedures for Chase Aircraft Operations during Lost Link

Altitudes for each segment: After take-off from Cochise College airport, the UAS will climb to the briefed altitude commensurate with FAR 91, unless mission dictates nonstandard altitude.
