

Federal Aviation Administration

Memorandum

Date: November 16, 2010

Ardyth Williams

From: Ardyth Williams, Air Traffic Manager, Unmanned Aircraft Systems

To: Manager, Operations Support Group, Eastern Service Area

Subject: Department of Homeland Security, Customs and Border Protection (CBP) – Certificate of Waiver or Authorization (2009-ESA-68) Change

Include this change page as part of the Certificate of Waiver or Authorization referenced above. This change is valid from November 19, 2010, until August 5, 2011.

1. Under Standard Provisions, amend the fourth bullet to include visual approach and read:

- (b) (7)(E) [REDACTED]

2. Add Special Provision #10.

The category and class requirement for PICs is not required for beyond-line-of-sight operations provided specialized CBP training for PICs has been administered.

3. Add Special Provision #11.

Department of Homeland Security-CBP accepts all liability for operations that occur outside of FAA flight information regions (FIR) and is responsible for coordination with appropriate air navigation service providers. This does not imply that the FAA is aware or authorizes any specific proposed operations that will occur outside FAA FIRs.

This change is being made to allow the Department of the Homeland Security, Customs and Border Protection to complete mission requirements in support of national security reasons.
