

CBP UAS ADDENDUM

CBP is requesting COA approval to support Disaster relief in the wake of Hurricane Gustav. Formal FEMA tasking is forthcoming:

CBP will request access to the disaster area once it is determined to provide near real time video of the disaster area to requesting agencies. Orbits will be approximately (b) (7)(E) in duration.

Route as follows:

(b) (7)(E)

This will be a (b) (7) flight plan request. When support is no longer required in the disaster area the CBP will request to transit back to (b) (7)(E) via reverse routing at (b) (7)(E) to be coordinated real time.

Total distance

(b) (7)(E)

Estimated time enroute

(b) (7)(E)

CBP will request to fly a Synthetic Aperture Radar (SAR) mission on 1Sep08 at 0600L & 2000 L on 3Sep08 . This mission will allow CBP to provide change detection pre & post hurricane. The SAR mission will be flown over water as directed by FAA. Mission Profile will be provided (b) (7)(E) prior to departue

There is also the possibility CBP will need to send a second Predator B to (b) (7)(E) in the event of maintenance problem with the first UAS (b) (7)(E)

CBP is gearing for a flight at 1300z 31Aug08.
