1. Under General Provisions, add the following bullet:

This does not imply that the FAA is aware or authorizes any specific proposed operations that will occur outside FAA jurisdiction.
2. Under Standard Provisions, amend the fourth bullet to include visual approach and read:
 - (b) (7)(E) [REDACTED]
3. Replace Special Provision 5.b with the following paragraph:

(b) (7)(E) [REDACTED]
4. Add Special Provision #13.

The category and class requirement for PICs is not required for beyond-line-of-sight operations provided specialized CBP training for PICs has been administered.
5. Add Special Provision #14.

CBP may transition to/from the AO (b) (7)(E)

This change is being made to allow the Department of the Homeland Security, Customs and Border Protection to complete mission requirements in support of national security reasons.
