Emergency Procedures

Emergency Termination: Unable to sustain flight and return to base

In the event of Flight Termination, the PIC █(b) (7)(E)█

Note: As with manned aircraft operations, the UA may not be able to proceed in a controlled fashion to the flight termination location.

Lost Link: Loss of command uplink, downlink, or both links between the ground control station and the UA

In the event of a Lost Link condition, the PIC █(b) (7)(E)█
