

## **LOST COMMUNICATIONS PROCEDURE FOR:**

### **DRAGANFLYER X6 HELICOPTER AIR OPERATIONS**

---

The proposed flight operations area is in Class G airspace. The requested flight operations ceiling is 400ft AGL. Prior to flight operations North Vernon Airport will be contacted at 812-346-5223 and Brush Creek Airport will be contacted at 812-458-6969. Both will be briefed on the intended flight operation/s with location, operational parameters/objectives and flight duration/s.

While conducting flight operations, a VHF radio will be maintained and programmed to operational frequencies utilized for air traffic by North Vernon Airport. Should radio communications become disrupted North Vernon and Brush Creek can be contacted via cell phone or satellite phone at the above number.

Brush Creek airport is small and seldom used.

All personnel involved with the mission will have two way radios and cell phones.

Loss of Communications procedures will be executed as addressed in the Certificate of Authorization.
