Operational Description	Requested Effective Period	Beginning	
		End	
		Light out operation	No
		VFR operation	Yes
		IFR operation	No
		Day operation	Yes
		Night operation	No
		Program Executive Summary	<p>The Systems Engineering Directorate (SED) of the NASA Langley Research Center desires to fly a "suite" of similar Unmanned Aircraft System (UAS) aircraft (Radio Control Models) at Blackstone (BKT), Virginia. This project activity is provided to the NASA Aviation Safety and Security Program (AvSSP) Office request for development of a subscale generic transport aircraft test bed for conducting experiments in support of the Control Upset Prevention and Recovery (CUPR) element of the AvSSP.</p> <p>Enclosed please find our documentation for application for Certificate of Authorization (COA) that is required. Based on flight experience over the past two years under the COA approval for 31VA Aberdeen, we respectfully request that the minimum crew requirements for AirSTAR Operations be changed as follows: "the minimum crew for jet turbine powered UAS vehicles shall be (1) Pilot, (3) Safety Spotters, and (1) Chief Engineer. For the slower propeller driven models with less kinetic energy, only one Safety Spotter is required". The current COA directive is to have (3) Safety Spotters at all times regardless of the type of UAS vehicle.</p> <p>If you have any questions regarding the technical data provided, please contact (b) (6) concerning operational issues.</p>
		Operational Summary	The NASA Langley UAS lab intends to utilize the airspace on an average of two days per week (Monday through Friday) between the hours of 8:30 am to 5:30 pm (local time). Each UAS flight duration is approximately 12 minutes in length and on a good weather day, will complete 8 to 12 flights.
	Location	State	VA
		County	Nottoway
		Nearest Airport	ALLEN C PERKINSON BLACKSTONE AAF
		AOR	Virginia
	Class Of Airspace	Class-A	
		Class-B

		Relay via aircraft	No
Electronic Surveillance/ Detection Capability		EO/IR	No
		Terrain detection	No
		Weather/icing detection	No
		Radar	No
		Other Attachment	0
		Electronic detection systems	No
		Electronic detection systems attachment	0
		Radar observation	No
		NAS Operational Capability Attachment	0
Visual Surveillance/ Detection Capability	Maximum Distance from UA	Vertical	1500 Feet
		Horizontal	2.5 Nautical Miles
		Airborne based (Chase Aircraft)	No
		Ground based	No
		Visual observation from one or more ground sites	Yes
		Forward or side looking cameras	No
		Attachment for All	1
Aircraft Performance Recording		Flight data recording	Yes
		Control station recording	Yes
		Voice Recording	No
Flight Aircrew Qualifications	Pilots	Private (Written)	Yes
		Private (Certified)	Yes
		Instrument	Yes
		Commercial	No
		Air Transport	No
		Unique Trained Pilot	Yes
		Unique Trained Pilot Description	All NASA UAS pilots have, as a minimum, passed the Private Pilot written exam. Four of the five pilots hold Private Pilot Land certifications, one pilot is instrument rated. Additionally, each NASA UAS pilot must possess a current Turbine Waiver Certification that is renewed annually. The guidelines and qualifications for holding a Turbine Waiver are defined and regulated by the Academy of Model Aeronautics. The skills for obtaining an AMA Turbine Waiver are defined in the AMA "Turbine Qualification Flight Attestation" document 510-D". All NASA UAS pilots are in good standing with current Turbine Waiver Certifications.
		DOD certified/trained	No
		Other Certified Training	No
		Trained on FAR Part 91 Requirement	Yes
		Medical Certification Class (FAA or DOD equivalent)	3
		Currency Status	All NASA UAS pilots have current class 3 medical certifications.
		Duty Time Restrictions	None
		Single UAS Control	No
		UAS Description	
		Total Numbers of UAS Controlled	2
	Observers	Private (Written)	Yes
		Private (Certified)	No
		Instrument	No
		Commercial	No

		Air Transport	No
		Unique Trained Pilot	No
		Unique Trained Pilot Description	All NASA UAS observers have, passed the Private Pilot written exam. Additionally, the observers have been trained by the project for proper traffic observation and communication procedures.
		DOD certified/trained	No
		Other Certified Training	No
		Trained on FAR Part 91 Requirement	Yes
		DOD Certified Training Attachment	0
		Medical Certification Class (FAA or DOD equivalent)	3
		Currency Status	All NASA UAS observers have current class 3 medical certifications.
		Duty Time Restrictions	None
		Single UAS Control	No
